Driving Like Crazy Jan 03 2020 The #1 New York Times–bestselling humorist's tribute to car travel is "a ride worth taking, even for readers who don't know an oil pan from a frying pan" (The Washington Times). From a veteran of both Car and Driver and National Lampoon magazines, this hilarious book chronicles the golden age of the automobile in America—and takes us on a whirlwind tour of the world's most scenic and bumpiest roads in trouble-laden cross-country treks, from a 1978 Florida-to-California escapade in a 1956 special four-door Buick sedan, to a thousand-mile effort across Mexico in the Baja 1000 in 1983, to a journey through Kyrgyzstan in 2006 on the back of a Soviet army surplus six-wheel-drive truck. For longtime fans of the celebrated humorist, the collection features a host of O'Rourke's classic pieces on driving, including "How to Drive Fast on Drugs While Getting Your Wing-Wang Squeezed and Not Spill Your Drink," about the potential misdeeds one might perform in the front (and back) seat of an automobile; "The Rolling Organ Donors Motorcycle Club," which chronicles a seven-hundred-mile weekend trip through Michigan and Indiana that O'Rourke took on a Harley-Davidson; his brilliant and funny piece from Rolling Stone on NASCAR and its peculiar culture recorded during an alcohol-fueled weekend in Charlotte, North Carolina, in 1977; and an hilarious account of a ride from Islamabad to Calcutta in Land Rover's new Discovery Trek. "Never in neutral, O'Rourke offers laughter on wheels." —Publishers Weekly "An insightful look not just at the American love affair with cars, but also at one man's changing outlook on life, all of it fast-paced and over the top . . . Even readers who know nothing about cars and motorcycles will appreciate the joy and hilarity of this book." —Booklist

I Feel Earthquakes More Often Than They Happen Oct 31 2019 From one of our most astute contemporary writers, Amy Wilentz, comes an irreverent, inventive portrait of the state of California and its unlikely governor, Arnold Schwarzenegger. The prizewinning author, a lifelong easterner and an outsider in the West, takes the reader on a picaresque journey from exclusive Hollywood soirees to a fantasy city in the Mojave desert, from the La Brea Tar Pits to celebrity-besotted Sacramento, from the tents of Skid Row to surf-drunk Malibu, from a snowbird retreat near Mexico to the hippie preserve of tide-beaten Big Sur, along the way offering up sharp observations on politics, fund-raising, the water supply, the Beach Boys, earthquake preparedness, home economics, catastrophism, movie-star politicians, political movie stars, Charlie Manson, and location scouts who want to rent your house in order to make television commercials for bathroom wall cleansers or Swedish banks. Wilentz moved to Los Angeles from a Manhattan wounded by September 11, only to discover a paradise marred by fire, flood, and mudslides. In what seemed like a joke to her, a Democratic governor nicknamed Gumby was about to be ousted by an Austrian muscleman in a bizarre election promoted by a millionaire whose business was car alarms. Intrigued, she set out to find the essence of the quirky, trailblazing state. During her travels, she spots celebrities but can't quite place them, drops in on famous salons with habitués like Warren Beatty and Arianna Huffington, and visits the neglected office of one very special 9,000-year-old woman. Plunging into the traffic of California, Wilentz noodles out meaning in some of the least likely of places; she sees the political in the personal and the personal in the political. By now an expert on tremors real and imagined, she offers readers on both coasts insights

into where California stands today, and America as well.

The Escape Sep 22 2021 Jack made comments about a prominent political figure when he and his wife, Joanne were living in Las Vegas. Jack lost his job and no employer would even talk to him. Joanne lost her job, too. They were blacklisted. They were informed that a warrant had been issued for their arrest, the charge being terrorism. They hit the road in an act of survival. They spent time in a native-American commune for a few months and then on to Texas, Louisiana and Tennessee. They were being chased everywhere. Finally, the law in Texas informed them that was never a warrant for their arrest. The whole time they depended on God for their protection as their faith grew stronger with every episode they encountered.

Lemon-Aid New Cars and Trucks 2012 Apr 17 2021 Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers) GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago) You can save \$2,000 by cutting freight fees and "administrative" charges) Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea) Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

Lemon-Aid New Cars and Trucks 2011 Dec 14 2020 As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."

Celebrity Protection and Touring Sep 30 2019 Introduction to Celebrity Protection and Touring offers a peek behind the scenes of the close protection industry, more commonly known as the bodyguard business. More than the stereotypical "bullet blocker," the modern protection specialist is a skilled practitioner who utilizes verbal judo much more than its physical counterpart. This book, written by industry experts, Elijah Shaw and Dale June, also narrows the focus, centering in on an exciting, but misunderstood, sector that involves working with celebrities ranging from actors to musicians and entering into their world of touring, filming and promotional appearances. While many may think that celebrity protection is "one size fits all," nothing could be further from the truth, as you are not only dealing with the protection of the client, but the client's reputation. All this with the added pressure of the entire world looking over your shoulder, just waiting for a misstep. With real-world advice, tactics and techniques on how to identify and defeat potential attackers, as well as covering everything from dealing with overzealous fans, to hyper-aggressive paparazzi, this book offers proven solutions from two experts that have covered the gambit from the Grammy Awards to the White House.

In this profile of the life of a man who has developed into a philosopher in the purest sense of the word; Marty Urand became a leader in fitness across the State of Texas. This is a story of a young man who dreamed he could be the best he could be, but wasn't sure of the conveyance to get him there. Basketball gave him that carriage! Dribble...cut...pivot...shoot...Score! The rhythm of basketball surged through his veins, but learning the basics of an education were the farthest from his thoughts. Democratic Policing in a Changing World Dec 02 2019 Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world. Yet it is rarely defined and it is little understood by the public and even by many of its practitioners. Peter K. Manning draws on political philosophy, sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing. In the process he delineates today's relationship between democracy and policing. *Democratic Policing in a Changing World* documents the failure of police reform, showing that each new approach - such as crime mapping and 'hot spots' policing - fails to alter any fundamental practice and has in fact increased social inequalities. He offers a new and better approach for scholars, policy makers, police, governments and societies.
