**Digital Body Language** May 07 2020 An instant Wall Street Journal Bestseller The definitive guide to communicating and connecting in a hybrid world. Email replies that show up a week later. Video chats full of “oops sorry no you go” and “can you hear me?!” Ambiguous text-messages. Weird punctuation you can't make heads or tails of. Is it any wonder communication takes us so much time and effort to figure out? How did we lose our innate capacity to understand each other? Humans rely on body language to connect and build trust, but with most of our communication happening from behind a screen, traditional body language signals are no longer visible -- or are they? In *Digital Body Language*, Erica Dhawan, a go-to thought leader on collaboration and a passionate communication junkie, combines cutting edge research with engaging storytelling to decode the new signals and cues that have replaced traditional body language across genders, generations, and culture. In real life, we lean in, uncross our arms, smile, nod and make eye contact to show we listen and care. Online, reading carefully is the new listening. Writing clearly is the new empathy. And a phone or video call is worth a thousand emails. *Digital Body Language* will turn your daily misunderstandings into a set of collectively understood laws that foster connection, no matter the distance. Dhawan investigates a wide array of exchanges—from large conferences and video meetings to daily emails, texts, IMs, and conference calls—and offers insights and solutions to build trust and clarity to anyone in our ever changing world.

*Art Deco Britain* Jan 03 2020 The definitive guide to Art Deco buildings in Britain. The perennially popular style of Art Deco influenced architecture and design all over the world in the 1920s and 1930s – from elegant Parisian theatres to glamorous Manhattan skyscrapers. In *Art Deco Britain*, leading architecture historian and writer Elaine Harwood, brings her trademark clarity and enthusiasm to the subject as she explores Britain's Art Deco buildings. *Art Deco Britain*, published in association with the Twentieth Century Society, is the definitive guide to the architectural style in Britain. The book begins with an overview of the international Art Deco style, and how this influenced building design in Britain. The buildings covered include Houses and Flats; Churches and Public Buildings; Offices; Shops; Showrooms and Cafés; Hotels and Public Houses; Cinemas, Theatres and Concert Halls; Sports Buildings; Industrial Premises and Transport Buildings. The book covers some of the best-loved and some lesser-known buildings around the UK, such as the Midland Hotel in Morecambe, Eltham Palace, Broadcasting House and the Carreras Cigarette Factory in London, Finella in Cambridge, St Christopher's Church in Liverpool and Tinside Lido in Plymouth. [Codebreaker Girls](#) Oct 12 2020 “What would it be like to keep a secret for fifty years? Never telling your parents, your children, or even your husband?” *Codebreaker Girls: A Secret Life at Bletchley Park* tells the true story of Daisy Lawrence. Following extensive research, the author uses snippets of information, unpublished photographs and her own recollections to describe scenes from her mother's poor, but happy, upbringing in London, and the disruptions caused by the outbreak of the Second World War to a young woman in the prime of her life. The author asks why, and how, Daisy was chosen to work at the Government war station, as well as the clandestine operation she experienced with others, deep in the British countryside, during a time when the effects of the war were felt by everyone. In addition, the author examines her mother's personal emotions and relationships as she searches for her young fiancée, who was missing in action overseas. The three years at Bletchley Park were Daisy's university, but having closed the door in 1945 on her hidden role of national importance – dealing with Germany, Italy and Japan – this significant period in her life was camouflaged for decades in the filing cabinet of her mind. Now her story comes alive with descriptions, original letters, documents, newspaper cuttings and unique photographs, together with a rare and powerful account of what happened to her after the war. “Here's a

beauty of a history of some of the codebreaking girls who helped save us during the second world war. This one's about Daisy Lawrence's extraordinary life as a poor girl brought up in London and then chosen for top secret work at Bletchley Park. Reads like fiction." –Books Monthly

**Brag Better** Aug 22 2021 This effortless and unapologetic approach to self-promotion will manage your anxiety and allow you to champion yourself. Does talking about your accomplishments feel scary or icky because you're worried people will think you're "obnoxious"? Does it feel more natural to "put your head down and do the work"? Are you tired of watching the loudest people in your industry get disproportionate praise and rewards? If you answered "yes" to any of the above, you might be self-sabotaging. You need to learn to Brag Better. Meredith Fineman has built a career working with "The Qualified Quiet": smart people who struggle to talk about themselves and thus go underestimated or unrecognized. Now, she shares the surefire and anxiety-proof strategies that have helped her clients effectively communicate their achievements and skillsets to others. Bragging Better doesn't require false bravado, talking over people, or pretending to be more qualified than you are. Instead, Fineman advocates finding quiet confidence in your opinions, abilities, and background, and then turning up the volume. In this book, you will learn the career-changing tools she's developed over the past decade that make bragging feel easy, including: Get remembered by focusing your personal brand and voice on key adjectives (like "effective, subtle, and edgy") Practice explaining what you do in simple, sticky terms to earn respect and recognition from the public and people at work. Eliminate words that undermine your work and find better ones--like your bio saying you're "trying" or "attempting" to do something instead that you ARE doing it. If you're ready to begin Bragging Better--to telling the truth about your accomplishments with grace and confidence--this book is for you.

**The Spooky Art** Feb 25 2022 "Writing is spooky," according to Norman Mailer. "There is no routine of an office to keep you going, only the blank page each morning, and you never know where your words are coming from, those divine words." In *The Spooky Art*, Mailer discusses with signature candor the rewards and trials of the writing life, and recommends the tools to navigate it. Addressing the reader in a conversational tone, he draws on the best of more than fifty years of his own criticism, advice, and detailed observations about the writer's craft. Praise for *The Spooky Art* "The Spooky Art shows Mailer's brave willingness to take on demanding forms and daunting issues. . . . He has been a thoughtful and stylish witness to the best and worst of the American century."–*The Boston Globe* "At his best—as artists should be judged—Mailer is indispensable, an American treasure. There is enough of his best in this book for it to be welcomed with gratitude."–*The Washington Post* "[*The Spooky Art*] should nourish and inform—as well as entertain—almost any serious reader of the novel."–*Baltimore Sun* "The richest book ever written about the writer's subconscious."–*The Philadelphia Inquirer* "Striking . . . entrancingly frank."–*Entertainment Weekly* Praise for Norman Mailer "[Norman Mailer] loomed over American letters longer and larger than any other writer of his generation."–*The New York Times* "A writer of the greatest and most reckless talent."–*The New Yorker* "A devastatingly alive and original creative mind."–*Life* "Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance."–*The New York Review of Books* "The largest mind and imagination [in modern] American literature . . . Unlike just about every American writer since Henry James, Mailer has managed to grow and become richer in wisdom with each new book."–*Chicago Tribune* "Mailer is a master of his craft. His language carries you through the story like a leaf on a stream."–*The Cincinnati Post*

**Liquid Assets** Aug 10 2020 Played in Britain is a groundbreaking series celebrating Britain's diverse sporting heritage, from medieval cockpits and bowling greens to 20th century billiard halls, ice rinks and stadiums. In *Liquid Assets*, the third book of this much talked-about series, journalist Janet Smith, author of a history of Tooting Bec Lido and herself a keen swimmer, traces the development of Britain's surprisingly rich stock of lidos, starting with their muddy beginnings in London's parks, through their fashionable heyday in the Thirties, to their battle for survival today. Lavishly illustrated with both archive and contemporary photographs, *Liquid Assets* highlights some of the nation's outstanding architectural examples. But if lidos were once to be found in virtually every town and city, since 1945 many have been closed, often despite the efforts of thousands of vociferous campaigners. *Liquid Assets* charts the best of these lost lidos, including one in Purley where the towering concrete and steel diving board now forms the curious centrepiece of a garden centre. The book also provides a unique listing of all lidos still open in Britain, with detailed case studies of the most impressive, including the Art Deco glories of the triangular-shaped Jubilee Pool, Penzance, Saltdean Lido, near Brighton and Tinside Lido, Plymouth, all opened in 1935 and recently renovated to popular acclaim. With our summers seemingly getting ever hotter, are we about to enter a second golden era for Britain's much loved lidos? Never before has there been a comprehensive account of this, one of most popular forms of recreational architecture. *Played in Britain* invites readers to dip in and discover anew the best of the nation's *Liquid Assets*.

**I Can't Stop Tooting** Apr 29 2022 *I Can't Stop Tooting: A Love Story* is a classic illustrated children's book for up to 7 years old. It's a reader book about love, acceptance, and farting. I mean what kid doesn't love farting. It's objectively hilarious, but this book has so much more. It's a tale about a girl who is shut off from society. Nobody likes her because she stinks. Then she meets a boy that shows her that you don't need everybody to like you as long as the right people do. In today's world, children need to know that they are accepted. This is a great tale that tells that message loud and clear. There's

also farting. Lots of farting.

**Creative States of Mind** Oct 31 2019 What is it like to be an artist? Drawing on interviews with professional artists, this book takes the reader inside the creative process. The author, an artist and a psychotherapist, uses psychoanalytic theory to shed light on fundamental questions such as the origin of new ideas and the artist's state of mind while working. Based on interviews with 33 professional artists, who reflect on their experiences of creating new works of art, as well as her own artistic practice, Patricia Townsend traces the trajectory of the creative process from the artist's first inkling or 'pre-sense', through to the completion of a work, and its release to the public. Drawing on psychoanalytic theory, particularly the work of Donald Winnicott, Marion Milner and Christopher Bollas, the book presents the artist's process as a series of interconnected and overlapping stages, in which there is a movement between the artist's inner world, the outer world of shared 'reality', and the spaces in-between. *Creative States of Mind: Psychoanalysis and the Artist's Process* fills an important gap in the psychoanalytic theory of art by offering an account of the full trajectory of the artist's process based on the evidence of artists themselves. It will be useful to artists who want to understand more about their own processes, to psychoanalysts and psychotherapists in their clinical work, and to anyone who studies the creative process.

Life Is What You Make It Apr 05 2020 From composer, musician, and philanthropist Peter Buffett comes a warm, wise, and inspirational book that asks, Which will you choose: the path of least resistance or the path of potentially greatest satisfaction? You may think that with a last name like his, Buffett has enjoyed a life of endless privilege. But the son of billionaire investor Warren Buffett says that the only real inheritance handed down from his parents was a philosophy: Forge your own path in life. It is a creed that has allowed him to follow his own passions, establish his own identity, and reap his own successes. In *Life Is What You Make It*, Buffett expounds on the strong set of values given to him by his trusting and broadminded mother, his industrious and talented father, and the many life teachers he has met along the way. Today's society, Buffett posits, has begun to replace a work ethic, relishing what you do, with a wealth ethic, honoring the payoff instead of the process. We confuse privilege with material accumulation, character with external validation. Yet, by focusing more on substance and less on reward, we can open doors of opportunity and strive toward a greater sense of fulfillment. In clear and concise terms, Buffett reveals a great truth: Life is random, neither fair nor unfair. From there it becomes easy to recognize the equal dignity and value of every human life—our circumstances may vary but our essences do not. We see that our journey in life rarely follows a straight line but is often met with false starts, crises, and blunders. How we push through and persevere in these challenging moments is where we begin to create the life of our dreams—from discovering our vocations to living out our bliss to giving back to others. Personal and revealing, instructive and intuitive, *Life Is What You Make It* is about transcending your circumstances, taking up the reins of your destiny, and living your life to the fullest.

**Steve Mcqueen: Year 3** Jul 09 2020 Year 3 is one of the most ambitious records of citizenship ever undertaken. Using the medium of the traditional school class photograph, this epic work captures tens of thousands of London schoolchildren from a single academic year. Mapping a picture of the present, the artwork captures a milestone year in a child's personal development: the moment when they become more conscious of the world beyond their immediate family. It is a critical time for them to develop confidence in all areas of life, to understand more about their place in the changing world and to think about the future. Depicting rows of children sitting or standing alongside their teachers and teaching assistants, Year 3 reflects this moment of excitement, anxiety and hope. Year 3 is more than a portrait of a generation however: it documents and explores, in a way never before attempted, a range of urgent ideas connected to the UK, and to our world, today. This book takes the photographs as a starting point and looks ahead, commenting on and contextualising the artwork and its message, but also providing a platform for new voices, and a new set of ideas. Year 3 is less a commemoration and more an active extension of the artwork itself: 'a glimpse of the capital's future, a hopeful portrait of a generation to come.'

This book will turn those nice girls into winning women. That is, women who factor their own needs in with those of others, confront those who treat them disrespectfully, maintain healthy and mutually beneficial relationships with appropriate boundaries—and as a result, are happier and more successful in every area of their life. In 2004, Lois Frankel blew the lid off so many of our long-held ideas about gender and success with her bestselling Nice Girls Don't Get the Corner Office, which went on to become such a huge phenomenon, the term "nice girls" has secured a place in our cultural lexicon. Here, Frankel teams up with negotiation expert Carol Frohlinger to bring this bestselling advice out of the workplace and provide a broader set of skills that any woman—whether a CEO or stay-at-home mom—can use to win anywhere, with anyone. Presented in the straightforward, digestible format that helped make Nice Girl's Don't Get the Corner Office an instant hit, Frankel and Frohlinger outline seven practical strategies and 99 supporting tactics that every winning woman should know. By the time you've finished reading this book, you'll be able to:

- Get your husband to do his half of the household chores—without being made to feel like a nag.
- Stop overextending yourself by taking on all the unpleasant tasks no one on your volunteer board, or your team at work will go near.
- Win an argument with your mother in law about who will be hosting Christmas dinner.
- Have the courage to send back a meal that isn't prepared the way you'd ordered it.
- Confront a colleague who is shirking responsibility or taking credit for your work.
- Convince a sales person to reduce a fee, waive a surcharge, or honor a store credit.
- Question a doctor's course or treatment or request a second opinion, instead of simply going along in order to be a "good" patient.
- Firmly but politely bow out of an extravagant vacation to celebrate a friend's birthday that you simply can't afford—without feeling guilty about it. And so much more.

A must-read for anyone who's ever felt taken advantage of by a friend or family member, unappreciated by a spouse or partner, or exploited by a vindictive neighbor or co-worker, Nice Girls Just Don't Get It offers women the indispensable knowledge and skills to get the things they want, the respect they've earned, and the success they deserve. From the Hardcover edition.

**The Art Deco Mansion in St Lucia** Jan 15 2021 St Lucia, the Brisbane suburb famed for its university campus, emerged despite world wars, Spanish Influenza and Depression. In the 1950s, kangaroos hopped

across open paddocks; snakes slithered through scrub. The sanitary cart, ice man, milkman and whistle-tooting postman traversed rutted dirt roads to service the community. And, each morning, sun-warmed milk churned the stomachs of the students at Ironside State School. Then, as bold new scaffolding reached for the sky, people watched, amazed, and asked Who could build this huge mansion-with an elevator in it-amid post war building constraints? In this St Lucia setting, a wide-eyed child of the outback overcame her terror of big schools, big cities, and big universities. A man of vision, faith and love inspired Ruth to rise above such challenges. This is the story of her grandfather. The third book of Ruth Back Bonetti's Midnight Sun to Southern Cross trilogy gives his own voice from interviews and voluminous correspondence, to answer the question: What drove this Migrant-Made-Good?

**Humblebrag** Mar 29 2022 From comedian and writer (Parks and Recreation, Eastbound & Down) Harris Wittels comes a hysterical breakdown of boasts, brags, and self-adulation disguised as humble comments and complaints-based on his popular @humblebrag Twitter feed. Something immediately annoyed Harris Wittels about Twitter. All of a sudden it was acceptable to brag, so long as those brags were ever-so-thinly disguised as transparent humility, such as: "Just filed my taxes. Biggie was right, mo money mo problems." "I hate when I go into a store to get something to eat and the male staff are too busy hitting on me to get my order right :( so annoying!"
