[Journey To Ixtlan](#) Apr 02 2020 Originally drawn to Yaqui Indian spiritual leader don Juan Matus for his knowledge of psychotropic plants, bestselling author Carlos Castaneda immersed himself in the sorcerer's magical world. Ten years after his first encounter with the shaman, Castaneda examines his field notes and comes to understand what don Juan knew all along—psychotropic plants are merely a means to understanding alternative realities that one cannot fully embrace on one's own. Journey to Ixtlan introduces these clear new ideas—omitted from Castaneda's classic volumes *The Teachings of Don Juan* and *A Separate Reality*—to the reader for the first time. Castaneda explores, as he comes to experience it himself, his own final voyage into the teachings of don Juan, and shares with us what it is like to truly "stop the world" and perceive reality on his own terms.

[The future of dialects](#) Jul 26 2019 Traditional dialects have been encroached upon by the increasing mobility of their speakers and by the onslaught of national languages in education and mass media. Typically, older dialects are "leveling" to become more like national languages. This is regrettable when the last articulate traces of a culture are lost, but it also promotes a complex dynamics of interaction as speakers shift from dialect to standard and to intermediate compromises between the two in their forms of speech. Varieties of speech thus live on in modern communities, where they still function to mark provenance, but increasingly cultural and social provenance as opposed to pure geography. They arise at times from the need to function throughout the different groups in society, but they also may have roots in immigrants' speech, and just as certainly from the ineluctable dynamics of groups wishing to express their identity to themselves and to the world. The future of dialects is a selection of the papers presented at *Methods in Dialectology XV*, held in Groningen, the Netherlands, 11-15 August 2014. While the focus is on methodology, the volume also includes specialized studies on varieties of Catalan, Breton, Croatian, (Belgian) Dutch, English (in the US, the UK and in Japan), German (including Swiss German), Italian (including Tyrolean Italian), Japanese, and Spanish as well as on heritage languages in Canada.

Academic Socialization of Young Black and Latino Children Jul 06 2020 This book offers a strengths-based, family-focused approach to improving the educational performance and school experience of struggling Black and Latino students. The book discusses educational challenges faced by low-income families of color and the different strengths within Black and Latino family life that can affect these challenges. It focuses building on these strengths within the children's home environments that can serve as a foundation for subsequent learning. The chapters describe a wide range of family practices and beliefs, including development of interventions to support families that promote early language and literacy, early mathematics, and social skills. The chapters also present quantitative and/or qualitative studies using a strengths-based approach to parents' socialization of their children's early academic skills. Topics featured in this book include: Latino and Black parental resources, investments, and beliefs Academic socialization in the homes of Black and Latino preschool children Development of culturally-informed interventions to promote children's school readiness skills Family-school partnerships as a tool for improving educational opportunities. Directions for future research Academic Socialization of Young Black and Latino Children is a must-have resource for researchers, educators, clinicians and related professionals, and graduate students in diverse fields including education, developmental and school psychology, family studies, counseling psychology and social work, and sociology of culture.
