Keeping Lucy Nov 22 2019 "This story will have readers not only rooting for Ginny and Lucy, but thinking about them long after the last page is turned." -- Lisa Wingate, New York Times Bestselling Author of *Before We Were Yours* PopSugar's 30 Must-Read Books of 2019 Good Housekeeping's 25 Best New Books for Summer 2019 Better Homes & Gardens 13 New Books We Can't Wait to Read This Summer The heartbreaking and uplifting story, inspired by incredible true events, of how far one mother must go to protect her daughter. Dover, Massachusetts, 1969. Ginny Richardson's heart was torn open when her baby girl, Lucy, born with Down Syndrome, was taken from her. Under pressure from his powerful family, her husband, Ab, sent Lucy away to Willowridge, a special school for the "feeble-minded." Ab tried to convince Ginny it was for the best. That they should grieve for their daughter as though she were dead. That they should try to move on. But two years later, when Ginny's best friend, Marsha, shows her a series of articles exposing Willowridge as a hell-on-earth--its squalid hallways filled with neglected children--she knows she can't leave her daughter there. With Ginny's six-year-old son in tow, Ginny and Marsha drive to the school to see Lucy for themselves. What they find sets their course on a heart-racing journey across state lines—turning Ginny into a fugitive. For the first time, Ginny must test her own strength and face the world head-on as she fights Ab and his domineering father for the right to keep Lucy. Racing from Massachusetts to the beaches of Atlantic City, through the Blue Ridge Mountains of Virginia to a roadside mermaid show in Florida, Keeping Lucy is a searing portrait of just how far a mother's love can take her. "A heartrending yet inspiring novel that kept me reading late into the night." —Kristina McMorris, New York Times bestselling author of *Sold on a Monday* and *The Edge of Lost* **Night Terrors** Apr 20 2022 I would wake up in the middle of the night; a cold sweat drenching my sheets, gasping for air, my hands racing defensively to my throat. In these brief moments that fallowed, I would always realize two things; one: it all had been a nightmare, a terrible nightmare, and two: the three figures standing at the foot of my bed hadnt disappeared with the scenery, they had fallowed me out. These figures, I knew them too well. Two were men silhouettes and one was female. It wasnt all to surprising how well I knew them, I saw them every night. I would always be running from them in a dark, eerie familiar place. But they would always reach me, pin me down, and begin to choke the life from me. Even after I woke, the pressure around my throat was real and would linger in bruises, and those figures would still be there, staring at me. Doctors called them night terrors. They said they werent uncommon for children and young teenagers who had recently lost their parents. Only, these started the night of my sixteenth birthday, two weeks before their death.

Richmond, London Feb 06 2021 Hackett, ex-UK Secret Intelligence Services (SIS), is in London waiting for a private kill assignment to proceed. His old boss, Charles Grimshaw sidelines Hackett as an SIS 'retread' to infiltrate the Gorgih German organised crime operation intent on acquiring personal identity and biometric data for black market resale. The Berlin based Gorgih family, headed by Michealov Gorgih, recruits Deborah Peers to establish a computer hacker operation in the back streets of Richmond, London. Michealov's brother Romanov and stepsister Saranda support the decision. However, each have their own agenda to profit from the stealing of encryption and biometric data from the UK based and financially struggling top secret software developer, DSP. With disregard to how much the Gorgih operation was destabilising the UK Government, certain prestige, but secretive, defence companies, the Banking institutions and his own family, Michealov had little option to but to push ahead, else default on his black market customers and investors. It was as Hackett became personally involved with Peers and abandoned his original low profile surveillance assignment that the dominoes began to tumble. The question is who was involved in one of the most ambitious of EU crimes, who would live today with their reputations salvaged, in some form or other, or who might become casualties? Mini-India Mar 27 2020 Often called 'Mini-India', the Andaman Islands have been a crucial site of encounter between different regimes, subjects, castes, creeds, languages, and ethnicities. Since 1858, subaltern convicts, refugees, repatriates, and labourers from South and Southeast Asia have moved to the islands, condemned to, or in search of a new life. While some migrants have achieved social mobility, others have remained disenfranchised and marginalized. This ethnographic study of the Andaman settler society analyses various shades of inequality that arise from migrant communities' material and representational access to the state. The author employs the concept of subalternity to investigate political negotiations of island history, collective identity, ecological sustainability, and resource access. Interpreting characteristic views, practices, and voices of subaltern interlocutors, the author untangles their collective agency and consciousness in migration, settlement, and place-making processes. Further, the book highlights particular subaltern strategies in order to achieve autonomy and peaceful cohabitation through movement, cultural and social appropriation, and multi-layered methods of resistance.

Rigatoni Feb 24 2020 Sarah Bartlett was an Academy Award-nominated film star, an Emmy-nominated television actress and a Tony-nominated stage performer. She was also awarded her very own Varsity Jacket by the former director of the US Department of Music's Federal Hip Hop Administration. Appearing in over 20 films (including Hearts of Sorrow, Hearts of Celery; Perkwit's Secret Bramboráky (the fourth installment of the Blurg movies); and Shadow of the Fish), she also starred on stage in such shows as Howling at the Moon: The Dog Musical; Billiard Balls of Death; and Dreadful About Those Shock Treatments, Eh? The woman was also an accomplished musician who performed guitar and baglama not only with her own group (Zooney's Lampshade) but also with the Hattiesburg Symphony Orchestra and Industrial Pole Bean Outlet; with the Palm Frond and Banana Spider Symphony Orchestra; and with the '56 Elvis Quintet at the Memphis in November: From Too Cool to Too Cold Music, Art and Law Practice Festival). There were other sides to Sarah, sides that she preferred people not know much about, sides involving Queen Victoria costumes, drinking way too many sodas at one sitting, and that whole ceramic curry serving bowl (from 2400 BCE) incident, which she knew would greatly upset anthropologists all over the world. Here, for the first time, is the entire story of Sarah Bartlett's life, including her children, her husband, her boyfriend, her shoes, her Toyota Cadberry, and her dreams (some of them involving picture frames made of cheese; some of them involving the Poky Little Puppy; some of them involving Gloria Swanson wearing a miniskirt, a pair of orange flip-flops and a T-shirt with a picture of Andy Warhol and the phrase "Hey, look, I'm a can of soup" on it; some of them involving cats with lobster claws for legs; and some of them involving copious amounts of Ranch Dressing). The book also includes over 150 illustrations, and some of them actually make sense. If you're looking for a book that offers the best ratio of cost per laugh, look no further. Further? Farther? Wait, let's think this out. Uhh, farther has an a in it, and measure has an a in it, so farther relates to distance. So, yeah, further is the right adjective to use. The Seattle Drainpipe Gazette says, "Rigatoni is to books as cat hair is to dogs." The Farmington Inquirer calls Rigatoni "unobtrusive," "mildly trapezoidal," and "looks great under some flowerpots." And the Tucson Rock Trader says, "If we crowdfund, we can raise enough money to get this author the serious help he so obviously needs. This isn't a cry for help, this is a sustained scream through a set of Peavey Dark Matter DM 118 Powered PA Subwoofer Speakers."

Dodge the Devil Oct 22 2019 Ernie Fontaine walks a path only loosely aligned with her original career choice in criminal psychology. While evidence remains elusive in her current investigation, Ernie seeks answers to questions never asked. Relentless in her pursuit but reluctantly growing cautious--resourceful and insightful, but troubled by sensibilities she prefers to ignore--Ernie proceeds case by case to expose the person she sees at the center of crime and tragedy around her. One man--Genovio Palicelli, known as Scorpion--aims to destroy Ernie. Powerful and rich, he plays a lethal game of cat and mouse. He reviles her for having rejected him and will settle for nothing short of seeing her dead. Scorpion has almost killed Ernie three times. She has almost caught him once. Tense, agonizing, and perilous, the collision approaches.

Saxual Healing Jul 11 2021 How does friendship become obsession? Why need any romantic love be forbidden? Does there exist a sound more seductive than the reedy bray of a saxophone solo? The seedy, hysterical and unforgettable diaries presented herein tell of a lonely young man whose typical teen angst snowballed from mischievous trickery into the saxophone-related murders of two innocent men, and Billy's disappearance. And yet, Billy's efforts ultimately culminated in the production of the world's most beautiful and unknowable artistic expression of homosexual love. The creation of this stranger-than-fiction narrative was as much editor Leo X. Robertson's personal journey to discover what it was about him that had so unbalanced a disturbed soul, how much of the fallout he was personally accountable for, and how it was that Billy's unwanted persecution led Leo straight into the arms of his soulmate. Now, for the first time ever, read Billy's side of the story.

Spirals in Time Apr 08 2021 Seashells are the sculpted homes of a remarkable group of animals: the molluscs. These are some of the most ancient and successful animals on the planet. But watch out. Some molluscs can kill you if you eat them. Some will kill you if you stand too close. That hasn't stopped people using shells in many ways over thousands of years. They became the first jewelry and oldest currencies; they've been used as potent symbols of sex and death, prestige and war, not

to mention a nutritious (and tasty) source of food. Spirals in Time is an exuberant aquatic romp, revealing amazing tales of these undersea marvels. Helen Scales leads us on a journey into their realm, as she goes in search of everything from snails that 'fly' underwater on tiny wings to octopuses accused of stealing shells and giant mussels with golden beards that were supposedly the source of Jason's golden fleece, and learns how shells have been exchanged for human lives, tapped for mind-bending drugs and inspired advances in medical technology. Weaving through these stories are the remarkable animals that build them, creatures with fascinating tales to tell, a myriad of spiralling shells following just a few simple rules of mathematics and evolution. Shells are also bellwethers of our impact on the natural world. Some species have been overfished, others poisoned by polluted seas; perhaps most worryingly of all, molluscs are expected to fall victim to ocean acidification, a side-effect of climate change that may soon cause shells to simply melt away. But rather than dwelling on what we risk losing, Spirals in Time urges you to ponder how seashells can reconnect us with nature, and heal the rift between ourselves and the living world.

Notes from the Backseat (Mills & Boon Silhouette) Sep 25 2022 I thought I knew everything about Gwen Matson. We've been best friends since sophomore year at Analy High. I know her to be smart and confident with a retro style that would give Jackie O a run for her money—albeit a graceful, sweat-free run in kitten heels.
