consequences that rock their patriarchal society to its core. When a nobleman's first duty is to produce a male heir, women have always been treated like possessions and bargaining chips. But now, as the aftereffects of this world-altering spell ripple out, women at last have a bargaining chip of their own. Why We Are Restless Apr 14 2021 "No one seems to be happy with the present. That loathing of the present is understandable. The present moment, in modern life, is hard to love, or even to grasp. For the modern present is a state of constant motion. Perpetual moral, social, and psychic revolution is the price we pay for our unprecedented liberty, equality, and prosperity. Though we rightly prize those great political goods, having our world turned upside down every morning makes us all of us uneasy and some of us miserable. We exacerbate our unease by our failure to recognize it. With our ritual insistence that we are perfectly content to "go with the flow," we deny even the existence of

Mother of All Aug 31 2022 An evil new magic threatens to undo all the progress women have made in the third and final book in Jenna Glass's riveting feminist fantasy series, following *The Women's War* and *Queen of the Unwanted*. In the once male-dominated world of Seven Wells, women now control their own reproduction, but the battle for equality is far from over. Even with two thrones held by women, there are still those who cling to the old ways and are determined to bring them back. Now into this struggle comes a darker power. Delnamal, the former King of Aalwell, may have lost his battle to undo the spell that gave women reproductive control, but he has gained a terrible and deadly magic—and he uses these new abilities to raise an army the likes of which the world has never seen. Delnamal and his allies seem like an unstoppable force, destined to crush the fragile new balance between men and

Yet sometimes it is possible for determined individuals to stem the tide, and it falls to a unique triad of women—maiden, mother, and crone—to risk everything . . . not only to preserve the advances they have won but to change the world one final time. A portion of the author's proceeds from this book is being donated to Planned Parenthood, in support of women's reproductive freedom.

Embodying the Problem Jul

The dominant narrative of teen pregnancy persuades many people to believe that a teenage pregnancy always leads to devastating consequences for a young woman, her child, and the nation in which they reside. Jenna Vinson draws on feminist and rhetorical theory to explore how pregnant and mothering teens are represented as problems in U.S. newspapers, political discourses, and teenage pregnancy prevention campaigns since the 1970s. Vinson shows that these representations prevent a focus on the underlying structures of inequality and poverty

perpetuate harmful discourses about women, and sustain racialized gender ideologies that construct women's bodies as sites of national intervention and control. Embodying the Problem also explores how young mothers resist this narrative. Analyzing fifty narratives written by young mothers, the recent #NoTeenShame social media campaign, and her interviews with thirty-three young women, Vinson argues that while the stigmatization of teenage pregnancy and motherhood does dehumanize young pregnant and mothering women, it is at the same time a means for these women to secure an audience for their own messages. Love & Olives Jan 30 2020 A New York Times Bestseller From the New York Times bestselling author of *Love & Gelato* comes a Mamma Mia!-inspired tale about a teen girl finding romance while trying to connect with her absent father in beautiful Santorini, Greece. Liv Varanakis doesn't have a lot of fond memories of her father, which makes sense—he fled to Greece when she was only eight. What Liv does remember, though, is their shared love for Greek myths and the lost city of Atlantis. So when Liv suddenly receives a postcard from her father explaining that National Geographic is funding a documentary about his theories on Atlantis—and will she fly out to Greece and help?—Liv jumps at the opportunity. But when she arrives to gorgeous Santorini, things are **Access Free irelandthanksyou.ie on December 3, 2022 Pdf For Free**

little...awkward. There are so many questions, so many emotions that flood to the surface after seeing her father for the first time in years. And yet Liv doesn't want their past to get in the way of a possible reconciliation. She also definitely doesn't want Theo—her father's charismatic so-called "protégé"—to witness her struggle. And that means diving into all that Santorini has to offer—the beautiful sunsets, the turquoise water, the hidden caves, and the delicious cuisine. But not everything on the Greek island is as perfect as it seems. Because as Liv slowly begins to discover, her father may not have invited her to Greece for Atlantis, but for something much more important.

When a financial boon arrives in the form of a young woman determined to attend the prince's ball, a risky spell turns out to be the miracle she needed. That is until the woman is found dead at the stroke of midnight, and Tessa comes face-to-face with the kingdom's cold, and way too appealing, lead detective. Detective Derrick Chambers has no use for the supernatural. As the rising star at the Royal Agency, he won't let magic, or the pretty witch that deals in it, get in the way of solving a murder. His logic tells him to steer clear of Tessa's chaos, but a forced partnership soon turns into an attraction neither can resist. With the body count rising, and the kingdom in a panic, an exposed secret will tear them apart and put Tessa in the sights of a killer where no amount of magic can save her.

encounters across distance and amass foreign ties—activities once limited to the wealthy, university-educated classes. The Internet, accessed on second-hand computers (castoffs from the United States and Europe), has become for these youths a means of enacting a more cosmopolitan self. In *Invisible Users*, Jenna Burrell offers a richly observed account of how these Internet enthusiasts have adopted, and adapted to their own priorities, a technological system that was not designed with them in mind. Burrell describes the material space of the urban Internet café and the virtual space of push and pull between young Ghanaians and the foreigners they encounter

online; the region's famous 419 scam strategies and the rumors of “big gains” that fuel them; the influential role of churches and theories about how the supernatural operates through the network; and development rhetoric about digital technologies and the future viability of African Internet cafés in the region. Burrell, integrating concepts from science and technology studies and African studies with empirical findings from her own field work in Ghana, captures the interpretive flexibility of technology by users in the margins but also highlights how their invisibility puts limits on their full inclusion into a global network society.
