**The Shock Doctrine** Apr 22 2022 'Impassioned, hugely informative, wonderfully controversial, and scary as hell' John le Carré Around the world in Britain, the United States, Asia and the Middle East, there are people with power who are cashing in on chaos; exploiting bloodshed and catastrophe to brutally remake our world in their image. They are the shock doctors. Exposing these global profiteers, Naomi Klein discovered information and connections that shocked even her about how comprehensively the shock doctors' beliefs now dominate our world - and how this domination has been achieved. Raking in billions out of the tsunami, plundering Russia, exploiting Iraq - this is the chilling tale of how a few are making a killing while more are getting killed. 'Packed with thinking dynamite ... a book to be read everywhere' John Berger 'If you only read one non-fiction book this year, make it this one' Metro Books of the Year 'There are a few books that really help us understand the present. The Shock Doctrine is one of those books' John Gray, Guardian 'A brilliant book written with a perfectly distilled anger, channelled through hard fact. She has indeed surpassed No Logo' Independent

**Off Target** Jan 19 2022 Thousands of Iraqi civilians were killed or injured during the three weeks of fighting from the first air strikes on March 20 to April 9, 2003, when Baghdad fell to U.S.-led coalition forces. Human rights investigated the conduct of the war during a five-week mission in Iraq. This report documents Iraqi violations of international humanitarian law, including use of human shields, abuse of the red cross and red crescent emblems, use of antipersonnel landmines, location of military objects in protected places, and failure to take adequate precautions to protect civilians from the dangers resulting from military operations.

**Facebook Nation** Sep 03 2020 Facebook's psychological experiments and Edward Snowden's NSA leaks epitomize a world of increasing information awareness in the social media ecosystem. With over a billion monthly active users, Facebook as a nation is overtaking China as the largest country in the world. President Barack Obama, in his 2011 State of the Union Address, called America "the nation of Edison and the Wright brothers" and "of Google and Facebook." U.S. Chief Information Officer Steven VanRoekel opines that America has become a "Facebook nation" that demands increased transparency and interactivity from the federal government. Ubiquitous social networks such as Facebook, Google+, Twitter, and YouTube are creating the technologies, infrastructures, and big data necessary for Total Information Awareness - a controversial surveillance program proposed by DARPA after the 9/11 attacks. NSA's secret PRISM program has reinvigorated WikiLeaks founder Julian Assange's accusation that "Facebook is the most appalling spying machine that has ever been invented." Facebook CEO Mark Zuckerberg once said, "We exist at the intersection of technology and social issues." This book offers discourse and practical advice on the privacy issue in the age of big data, business intelligence in social media, e-government and e-

activism, as well as personal total information awareness. This expanded edition also includes insights from Wikipedian Emily Temple-Wood and Facebook ROI experts Dennis Yu and Alex Houg.

Islamic Marketing Aug 22 2019 This book analyzes the current Islamic marketing environment. Since the Muslim world is extremely diverse in terms of economic development, customs and traditions and political and legal systems, it is vital for companies and marketers to analyze the environment before attempting to address these markets. The author emphasizes that it is ineffectual to elaborate the distribution and promotion strategies if the market does not exist in terms of purchasing power or demographics, if potential consumers do not believe that products and services answer their needs and demands or if there are political and legal barriers to companies wanting to enter these markets. The book offers detailed insights into the economic, socio-cultural, and politico-legal environment in the Muslim world, which are essential for marketers to understand and form the foundations of effective marketing strategies.

**The Girl in the Tangerine Scarf** Jul 21 2019 Syrian immigrant Khadra Shamy is growing up in a devout, tightly knit Muslim family in 1970s Indiana, at the crossroads of bad polyester and Islamic dress codes. Along with her brother Eyad and her African-American friends, Hakim and Hanifa, she bikes the Indianapolis streets exploring the fault-lines between "Muslim" and "American." When her picture-perfect marriage goes sour, Khadra flees to Syria and learns how to pray again. On returning to America she works in an eastern state -- taking care to stay away from Indiana, where the murder of her friend Tayiba's sister by Klan violence years before still haunts her. But when her job sends her to cover a national Islamic conference in Indianapolis, she's back on familiar ground: Attending a concert by her brother's interfaith band The Clash of Civilizations, dodging questions from the "aunties" and "uncles," and running into the recently divorced Hakim everywhere. Beautifully written and featuring an exuberant cast of characters, The Girl in the Tangerine Scarf charts the

spiritual and social landscape of Muslims in middle America, from five daily prayers to the Indy 500 car race. It is a riveting debut from an important new voice.

**Well Spent** May 11 2021 Drawing on the Fund's analytical and capacity development work, including Public Investment Management Assessments (PIMAs) carried out in more than 60 countries, the new book *Well Spent: How Strong Infrastructure Governance Can End Waste in Public Investment* will address how countries can attain quality infrastructure outcomes through better infrastructure governance—an issue becoming increasingly important in the context of the Great Lockdown and its economic consequences. It covers critical issues such as infrastructure investment and Sustainable Development Goals, controlling corruption, managing fiscal risks, integrating planning and budgeting, and identifying best practices in project appraisal and selection. It also covers emerging areas in infrastructure governance, such as maintaining and managing public infrastructure assets and building resilience against climate change.

**Arresting Images** Nov 17 2021 Although contemporary art may sometimes shock us, more alarming are recent attempts to regulate its display. Drawing upon extensive interviews, a broad sampling of media accounts, legal documents and his own observations of important events, sociologist Steven Dubin surveys the recent trend in censorship of the visual arts, photography and film, as well as artistic upstarts such as video and performance art. He examines the dual meaning of arresting images--both the nature of art work which disarms its viewers and the social reaction to it.

Arresting Images examines the battles which erupt when artists address such controversial issues as racial polarization, AIDS, gay-bashing and sexual inequality in their work.

**Why They Died** Oct 16 2021 The conflict between Israel and Hezbollah in July 2006 had a devastating effect on civilians in Lebanon. Israeli attacks killed at least at 1,109 Lebanese, the vast majority of them civilians. The strikes also injured 4, 399 people and displaced an estimated one million. This report presents the most extensive investigation to date that anyone has conducted into the circumstances surrounding these civilian deaths. Human Rights Watch visited more than 50 Lebanese villages, interviewed over 355 witnesses, and investigated 94 separate incidents of Israeli attacks. These attacks claimed the lives of 510 civilians, as well as 51 Hezbollah combatants--almost half of the Lebanese death in the conflict.

*100 Days of Sunlight* Apr 29 2020 When 16-year-old poetry blogger Tessa Dickinson is involved in a car accident and loses her eyesight for 100 days, she feels like her whole world has been turned upside-down. Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again.

Tessa spurns Weston's "obnoxious optimism", convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll have to make the hardest decision of his life: vanish from Tessa's world...or overcome his fear of being seen. 100 Days of Sunlight is a poignant and heartfelt novel by author Abbie Emmons. If you like sweet contemporary romance and strong family themes then you'll love this touching story of hope, healing, and getting back up when life knocks you down.

*Sentiment Analysis and Opinion Mining* Dec 06 2020 Sentiment analysis and opinion mining is the field of study that analyzes people's opinions, sentiments, evaluations, attitudes, and emotions from written language. It is one of the most active research areas in natural language processing and is also widely studied in data mining, Web mining, and text mining. In fact, this research has spread outside of computer science to the management sciences and social sciences due to its importance to business and society as a whole. The growing importance of sentiment analysis coincides with the growth of social media such as reviews, forum discussions, blogs, micro-blogs, Twitter, and social networks. For the first time in human history, we now have a huge volume of opinionated data recorded in digital form for analysis. Sentiment analysis systems are being applied in almost every business and social domain because opinions are central to almost all human activities and are key influencers of our behaviors. Our beliefs and perceptions of reality, and the choices we make, are largely conditioned on how others see and evaluate the world. For this reason, when we need to make a decision we often seek out the opinions of others. This is true not only for individuals but also for organizations. This book is a comprehensive introductory and survey text. It covers all important topics and the latest developments in the field with over 400 references. It is suitable for students, researchers and practitioners who are interested in social media analysis in general and sentiment analysis in particular. Lecturers can readily use it in class for courses on natural language processing, social media analysis, text mining, and data mining. Lecture slides are also available

*Musicians in Transit* Sep 15 2021 In *Musicians in Transit* Matthew B. Karush examines the transnational careers of seven of the most influential Argentine musicians of the twentieth century: Afro-Argentine swing guitarist Oscar Alemán, jazz saxophonist Gato Barbieri, composer Lalo Schifrin, tango innovator Astor Piazzolla, balada singer Sandro, folksinger Mercedes Sosa, and rock musician Gustavo Santaolalla. As active participants in the globalized music business, these artists interacted with musicians and audiences in the United States, Europe, and Latin America and contended with genre distinctions, marketing conventions, and ethnic stereotypes. By responding creatively to these constraints, they made innovative music that provided Argentines with new ways of understanding their nation's place in the world. Eventually, these musicians produced expressions of Latin identity that reverberated beyond Argentina, including a novel form of pop ballad; an anti-imperialist, revolutionary folk genre; and a style of rock built on a pastiche of Latin American and global genres. A website with links to recordings by each musician accompanies the book.
