**Foundations of Financial Management** Jun 06 2020 "First of all, the field of finance has become much more analytical, with the emphasis on decision-oriented approaches to problems rather than the old, descriptive approach. We have increased the use of analytical approaches to financial problems in virtually every chapter of the book. But we also have stayed with our basic mission of making sure students are able to follow us in our discussions throughout the text. While the 18th edition is considerably more sophisticated than the initial edition, it is still extremely "reader friendly." As the analytical skills demanded of students have increased, so has the authors' care in presenting the material. The use of spreadsheets and calculators has become considerably more important, and this is also reflected in the 18th edition where we have added Excel tables and calculator keystroke solutions within key chapters. We offer Web Exercises at the end of every chapter, URL citations throughout the text, a library of course materials for students and faculty, computerized testing software and PowerPoint® for the faculty, McGraw Hill Connect®, an online assignment and assessment solution, and SmartBook, a truly innovative adaptive study tool and eBook"--

The techniques and tools provided show how senior managers can work effectively with CIOs and IT directors to produce outstanding results. The approaches described are must-reading for non-technical executives with a stake in IT, as Baschab and Piot have taken pains to focus on the critical management concepts in IT without over-simplification." –Tom Bickes, President and CEO, Employbridge "In The Executive's Guide to Information Technology, Baschab and Piot clearly identify the challenges inherent in many IT organizations as seen from the front lines. Guiding the reader through the day-to-day challenges, and developing a strategic, step-by-step plan make this guide a key part of every front-line technology managers toolkit." –Bill Holt, Enterprise Engineering Manager, EDS Corp.
