Times Square Red, Times Square Blue Dec 23 2021 As issues of history and memory collide in our society and in the classroom, the time is ripe to rethink the place of history in our schools. Knowing, Teaching, and Learning History represents a unique effort by an international group of scholars to understand the future of teaching and learning about the past. It will challenge the ways in which historians, teachers, and students think about teaching history. The book concerns itself first and foremost with the question, "How do students develop sophisticated historical understandings and how can teachers best encourage this process?" Recent developments in psychology, education, and historiography inform the debates that take place within Knowing, Teaching, and Learning History. This four-part volume identifies the current issues and problems in history education, then works towards a deep and considered understanding of this evolving field. The contributors to this volume link theory to practice, making crucial connections with those who teach history. Published in conjunction with the American Historical Association.

Nova Nov 09 2020 A quest for a priceless element—and revenge—fuels this far-future interstellar adventure that “reads like Moby-Dick at a strobe-light show” (Time). In 3172, the universe is divided between three political units: the stars and worlds of Draco, with Earth as its power center; the Pleiades Federation, on whose capital world, New Ark, lives the incredibly wealthy Von Ray family, descended from well-heeled merchants whose ancestors made their fortune as pirates; and the Outer Colonies, where, in their underwater mines, tiny quantities of the fabulously valuable Illyrion have been discovered. Lorq Von Ray was a playboy and young space-yacht-racing captain who, at a party at Earth’s Paris, clashed with Draco’s Prince Red. This sets Lorq on a demonic quest, through which he hopes to find vengeance. When a star goes nova and implodes, in the seething stellar wreckage for a few days—even hours—lie tons of Illyrion, the element that makes interstellar travel possible. To help him secure the priceless fuel, Lorq recruits a gypsy musician, a would-be novelist, and some other ragtag misfits. But an even more dangerous fuel than Illyrion is revenge . . . This ebook features an illustrated biography of Samuel R. Delany including rare images from his early career.

The Jewels of Aptor Dec 31 2019 What was the strange impetus that drove a group of four widely different humans to embark on a fear-filled journey across a forbidden sea to a legendary land? This was Earth still, but the Earth of a future terribly changed after a planet-searing disaster, a planet of weird cults, mutated beasts, and people who were not always entirely human. As for the four who made up that questing party, they included a woman who was either a goddess, a witch, or both, a four-armed boy whose humanity was open to question, and two more men with equally "wild" talents. The story of their voyage, of the power-wielding "jewels" they sought, of the atomic and post-atomic terrors they encountered, is a remarkable science-fiction Odyssey of the days to come.

Shorter Views Mar 02 2020 Hugo and Nebula award-winning author Samuel R. Delany explores the deeply felt issues of identity, race, and sexuality, untangles the intricacies of literary theory, and discusses the writing process itself. These essays cluster around topics related to queer theory on the one hand, and on the other, questions concerning the paraliterary genres: science fiction, pornography, comics, and more.

[In Search of Silence](#) Dec 11 2020 The renowned novelist and critic’s private journals, spanning from his years as a high school student in the Bronx to early adult life in San Francisco. For fifty years Samuel Delany has cultivated a special relationship with language in works of fiction, criticism, and memoir that have garnered critical praise and legions of fans. The present volume—the first in a series—reveals a new dimension of his genius. In Search of Silence presents over a decade’s worth of Delany’s private journals, commencing in 1957 when he was still a student at the Bronx High School of Science, and ending in 1969 when he was living in San Francisco and on the verge of reconceiving the novel that would become Dhalgren. In these pages, Delany muses on the writing of the stories that will establish him as a science fiction wunderkind, the early years of his marriage to the poet Marilyn Hacker, performances as a singer-songwriter during the heyday of the American folk revival, travels in Europe, experiences in a New York City commune, and much more—and crosses paths with artists working in many genres, including poets such as Robert Frost, W. H. Auden, and Marie Ponsot, and science fiction writers such as Arthur C. Clarke, Michael Moorcock, Roger Zelazny, and Joanna Russ. Delany scholar Kenneth R. James presents the journal entries alongside generous samplings of story outlines, poetry, fragments of novels and essays that have never seen publication, and more; James also provides biographical synopses and an extensive set of endnotes to supply contextual information and connect journal material to Delany’s published work. “This is a tremendously significant and vital addition to the oeuvre of Samuel Delany; it clarifies questions not only of the writer’s process, but also his development—to see, in his juvenilia, traces that take full form in his novels—is literally breathtaking.” —Matthew Cheney, author of Blood: Stories “Traversing Delany’s youth, we see a precocious mind grappling with his own talent he lives on two registers, participating in the world and also observing it, living simultaneously as a kid in NYC and, ‘a writer of genius.’” —Robert Minto, New Republic “Mesmerizing . . . a true portrait of an artist as a young Black man . . . already visible in these pages are the wit, sensitivity, penetration, playfulness and the incandescent intelligence that will characterize Delany and his extraordinary work.” —Junot Díaz, author of The Brief Wondrous Life of Oscar Wao

[Phallos](#) May 16 2021 Phallos is a 2004 novel by the acclaimed novelist and critic Samuel R. Delany. Taking the form of a gay pornographic novella, with the explicit sex omitted, Phallos is set during the reign of the second-century Roman emperor Hadrian, and circles around the historical account of the murder of the emperor’s favorite, Antinous. The story moves from Syracuse to Egypt, from the Pillars of Hercules to Rome, from Athens to Byzantium, and back. Young Neoptolomus searches after the stolen phallus of the nameless god of Hermopolis, crafted of gold and encrusted with jewels, within which are reputedly the ancient secrets of science and society that will lead to power, knowledge, and wealth. Vivid and clever, the original novella has been expanded by nearly a third. Appended to the text are an afterword by Robert F. Reid-Pharr and three astute speculative essays by Steven Shaviro, Kenneth R. James, and Darieck Scott.

[Driftglass](#) Aug 07 2020 'Delany's works have become essential to the history of science fiction' New Yorker Samuel Delany is one of the most radical and influential science fiction writers of our age, who reinvented the genre with his fearless explorations of race, class and gender. Driftglass is the definitive volume of his stories, featuring neutered space travellers, telepathy, Hells Angels and genetically modified amphibious workers. 'Delany's books interweave science fiction with histories of race, sexuality and control. In so doing, he gives readers fiction that reflects and explores the social truths of our world' The New York Times

Hogg Nov 02 2022 The narrator of Hogg is a Huck Finn–like youngster caught in society’s most sinister seams—but unlike Huck, he passes no moral judgments on the violence he takes part in . . . Hogg is the story of a man—a depraved trucker named Franklin Hargus, whom the people he works for call Hogg—and of the nameless boy who tells the story of three days of unspeakable sexual violence and devastation, which, together, they initiate in a small seaside American city in the middle of the last century. Hogg is a towering brute who makes his living as a rapist for hire. By the end of a series of vicious attacks, kidnappings, and mass murders, the reader will wonder who is more corrupt: the man or the boy. Samuel R. Delany completed his first draft of Hogg within a day, if not within hours, of the 1969 Stonewall Riots in New York City and revised it over the next four years, though it was not released until 1995.

[The Jewel-Hinged Jaw](#) Oct 21 2021 Samuel R. Delany's The Jewel-Hinged Jaw first appeared in 1977. Its demonstration that science fiction is a special language, rather than gadgets and green-skinned aliens, had an impact that reverberates today in science fiction criticism. Close textual analyses of Thomas M. Disch, Ursula K. Le Guin, Roger Zelazny, and Joanna Russ read as brilliantly today as when they first appeared.

Occasional Views Volume 1 Aug 19 2021 Essays and occasional writings from one of literature's iconic voices Samuel R. Delany is an acclaimed writer of literary theory, queer literature, and fiction. His "prismatic output is among the most significant, immense and innovative in American letters," wrote the New York Times in 2019; "Delany's books interweave science fiction with histories of race, sexuality, and control. In so doing, he gives readers fiction that reflects and explores the social truths of our world." This anthology of essays, lectures, and interviews addresses topics such as 9/11, race, the garden of Eden, the interplay of life and writing, and notes on other writers such as Theodore Sturgeon, Hart Crane, Ursula K. Le Guin, Holderlin, and a note on—and a conversation with—Octavia Butler. The first of two volumes, this book gathers more than twenty-five pieces on films, poetry, and science fiction. These sharp, focused writings by a bestselling Black, gay author are filled with keen insights and observations on culture, language, and life.

Silent Interviews Apr 02 2020 Collected interviews featuring the Nebula Award–winning author and his thoughts on topics like literary criticism, comic books, race, and sexuality. For nearly three decades, Samuel R. Delany’s science fiction has transported millions of readers to the fringes of time, technology,

and outer space. Now Delany surveys the realms of his own experience as a writer, critic, theorist, and gay Black man in this collection of written interviews, a type of guided essay. Because the written interview avoids the “mutual presence positioned at the semantic core” of traditional interview, Delany explains, “a kind of cut remains between the participants—a fissure in which the truths there may be more malleable, less rigid.” Within that fissure Delany pursues the breadth and depth of his ideas on language and theory, the politics of literary composition, the experience of marginality, and the philosophical, commercial, and personal contexts of writing today. Gathered from sources as diverse as Diacritics and The Comics Journal, these interviews reveal the broad range of Delany’s thought and interests. “Delany has a unique place in late twentieth century letters. A lifelong inhabitant of the margins, both social and literary, he has used his marginalized status as a lens to focus his astute observations of American literature and society. From these interviews his voice emerges, provocative, precise, and engaging.” —Kathleen Spencer, University of Nebraska “Samuel R. Delany never shies away from contestable positions or provocative opinions. In his fiction, Delany can write like quicksilver, and in lectures or panel discussions, he is easily SF’s most articulate spokesperson in academia. . . . There is much here that is not covered in Delany’s critical or autobiographical writings, and much that anyone seriously interested in SF—or many of Delany’s other favorite topics—ought to consider.” —Locus “Delany is fascinating whether discussing SF, comics, or his experiences as a Black American, and this collection . . . is as entertaining as it is informative.” —Science Fiction Chronicle “Yevgeny Zamyatin? Stanislaw Lem? Forget it! Delany is both, with a lot of Borges and Bruno Schultz thrown in.” —Village Voice

City of a Thousand Suns Jul 06 2020 The war was over. The great computer which had arranged and directed the complex military operations of that future nation was to be dismantled. But the computer had become expert in the science of self-defence...and it resisted. The government buildings were blasted. Rockets rained on the great city, and the Empire of Toromon, the first great hope of humanity after the millennia of radiation wreckage, faced disaster at the hands of a super-scientific monster of its own creation. But, unknown even to Toromon's desperate leaders, was the fact that behind the berserk computer lurked the unearthly mind of a real enemy - a foe from the most distant realm of space, intent on making the Earth the first victim of galactic conquest.

DISTANT STARS Feb 10 2021 "Delany has a grasp of the evolutionary nature of mythology, a subtle comic touch, and a lyric sense of the outsider making his unorthodox way in the world--or worlds--that give his work a dimension unusual..."

Stars in My Pocket Like Grains of Sand Mar 26 2022 The story of a truly galactic civilization with over 6,000 inhabited worlds. Stars in My Pocket Like Grains of Sand is a science fiction masterpiece, an essay on the inexplicability of sexual attractiveness, and an examination of interstellar politics among far-flung worlds. First published in 1984, the novel's central issues—technology, globalization, gender, sexuality, and multiculturalism—have only become more pressing with the passage of time. The novel's topic is information itself: What are the repercussions, once it has been made public, that two individuals have been found to be each other's perfect erotic object out to "point nine-nine-nine and several nines percent more"? What will it do to the individuals involved, to the city they inhabit, to their geosector, to their entire world society, especially when one is an illiterate worker, the sole survivor of a world destroyed by "cultural fugue," and the other is—you!

The Motion of Light in Water Oct 09 2020 This Hugo Award–winning memoir is “a very moving, intensely fascinating literary autobiography from an extraordinary writer” (William Gibson, Nebula and Hugo Award–winning author of *Neuromancer*). With the poet Marilyn Hacker, Delany moves into a tenement on a dead-end street that the landlord reserves for interracial couples. Between playing folk music in the evenings at the same Greenwich Village coffee shop as Bob Dylan and preparing shrimp curry for W. H. Auden and Chester Khalman, who have accepted an invitation that night for dinner, Delany takes a stab at writing science fiction. This young prodigy would complete and sell five novels before he turned twenty-two! (And then have a nervous breakdown . . .) This beautifully written memoir is a testament to a neighborhood where experimentation was a way of life. This ebook features an illustrated biography of Samuel R. Delany including rare images from his early career.

Through the Valley of the Nest of Spiders Jul 26 2019 A Complete and Unabridged Edition in One Volume with the Latest Corrections "Samuel R. Delany is not only one of the most profound and courageous writers at work today; he is a writer of seemingly limitless range." --Michael Cunningham, Pulitzer Prize-winning author of *THE HOURS* "A deeply affecting chronicle of a lifelong partnership, *Through the Valley of the Nest of Spiders* is by turns generous, unsparing and bursting with life (and sex) in all its difficult, rousing, prismatic splendor. A truly staggering achievement, this moving novel underscores why Delany remains essential reading and why American letters would be the poorer without him." --Junot Díaz, Pulitzer Prize-winning author of *The Brief Wondrous Life of Oscar Wao* In 2007, days before his seventeenth birthday, Eric Jeffers meets nineteen-year-old Morgan Haskell, as well as half-a-dozen other gay men who live and work in Diamond Harbor. The boys become a couple, and for the next twenty years, labor as garbage men along the coast, sharing their lives and their lovers, learning to negotiate a committed open relationship. For a decade, they manage a rural movie theater that shows pornographic films and encourages gay activity among the audience. Finally, they become handymen for a burgeoning lesbian art colony on nearby Gilead Island, as the world moves twenty years, forty years, sixty years into a future that is fascinating, glorious, and--sometimes--terrifying. *Through the Valley of the Nest of Spiders* is a near-future science fiction novel. "Through the Valley of the Nest of Spiders is . . . one of the best novels by anyone that I have read in quite a long time. Indeed, I would go so far as to say (as I already put it on Twitter) that it is the best English-language novel that I know of, of the 21st century so far [2012]." --Steven Shaviro, DeRoy Professor of English, Wayne State University "An imposing and immersive novel that disturbs, gratifies, and enlightens. This is a monumental contribution to Afrofuturist, speculative, and queer literature. Another masterpiece from one of our very best and most important writers." --Lonely Christopher, author of *Death and Disaster Series*

Longer Views May 04 2020 Six essays from the critic and award-winning author exploring topics such as theater, LGBTQ+ scholarship, cyborgs, metaphors, and Star Wars. “Reading is a many-layered process—like writing,” observes Samuel R. Delany, a Nebula and Hugo Award–winning author and a major commentator on American literature and culture. In this collection of six extended essays, Delany challenges what he calls “the hard-edged boundaries of meaning” by going beyond the customary limits of the genre in which he’s writing. By radically reworking the essay form, Delany can explore and express the many layers of his thinking about the nature of art, the workings of language, and the injustices and ironies of social, political, and sexual marginalization. Thus, Delany connects, in sometimes unexpected ways, topics as diverse as the origins of modern theater, the context of lesbian and gay scholarship, the theories of cyborgs, how metaphors mean, and the narrative structures in the *Star Wars* trilogy. “Over the course of his career,” Kenneth James writes in his extensive introduction, “Delany has again and again thrown into question the world-models that all too many of us unknowingly live by.” Indeed, Delany challenges an impressive list of world-models here, including High and Low Art, sanity and madness, mathematical logic and the mechanics of mythmaking, the distribution of wealth in our society, and the limitations of our sexual vocabulary. Also included are two essays that illustrate Delany’s unique chrestomathic technique, the grouping of textual fragments whose associative interrelationships a reader must actively trace to read them as a resonant argument. Whether writing about Wagner or Hart Crane, Foucault or Robert Mapplethorpe, Delany combines a fierce and often piercing vision with a powerful honesty that beckons us to share in the perspective of these Longer Views. “An intellectually adventurous book. . . . Every page of every essay here rewards a second reading, and a third. Delany has a fearsomely stocked intellect, and a wider range of experience than most writers can even imagine. . . . He is brilliant, driven, prolific.” —The Nation “One of science fiction’s grand masters. . . . Delany’s elegant command of language and deep insight into other authors’ works are delightful to behold.” —Booklist “Rare personal frankness and stunning erudition. . . . Recommended for readers who enjoy the challenge of being led into remote regions of a gifted mind.” —Library Journal
