Girl Online Oct 24 2021 What happens when a woman goes online? She becomes a girl. The unwritten contract of the internet, that a user is what is used, extends from the well-examined issue of data privacy and consent to the very selves women are encouraged to create in order to appear. Invited to self-construct as “girls online,” vloggers, bloggers and influencers sign a devil’s bargain: a platform on the condition they commodify themselves, eternally youthful, cute and responsibility-free, hiding offline domestic, professional and emotional labour while paying for their online presence with “accounts” of personal “experience.” Told via the arresting personal narrative of one woman negotiating the

(cyber)space between her identities as girl, mother, writer, and commodified online persona, Girl Online is written in a plethora of the online styles, from programming language to the blog/diary, from tweets to lyric prose, taking in selfies, social media, celebrity and Cyberfeminism.

Instruction Manual for Ford Trimotor Airplane

Aug 29 2019 First produced in 1925, the Ford Trimotor had an immediate impact on commercial aviation, enabling Transcontinental Air Transport to launch coast-to-coast service in the USA and helping Pan American Airways expand into Central and South America. Developed by William B. Stout, whose Stout Metal Airplane Company was acquired by Ford Motor Co. in 1924, the aircraft had three Wright radial engines and boasted all-metal construction. It could fly in both passenger and cargo

configurations and was, for its time, both reliable and rugged. Its capacity however was limited, with Rapid advances in aviation led to the curtailment of production in 1933. By then 199 "Tin Gooses" had been produced. They would go on to fly with over 100 airlines worldwide, and in the service of the U.S. military and other air forces. Originally entitled "Suggestions on the Operation of the Ford Trimotor," this flight manual dates to 1926. It provides a fascinating look inside the cockpit of one of history's most iconic aircraft.

User's Manual for an Army National Guard (ARNG) Armor and Mechanized Infantry Gunnery Training Assessment Database Oct 31 2019 "This user's manual describes a longitudinal database designed to permit the storage, retrieval, and analyses of gunnery-related data generated with Army National Guard (ARNG) armored and mechanized infantry units. The database was developed as part of an assessment of the Simulation in Training for Advanced Readiness (SIMITAR) time-compressed gunnery training strategy, as implemented in a test ARNG armored brigade (Smith, in publication). It

contains gunnery performance measures from this test brigade and from six other enhanced "comparison" brigades where the SIMITAR training strategy was not introduced. These measures were collected from 1993-1997 and include first-run and final, live-fire, Table VIII gunnery qualification scores, tank main gun ammunition expenditures, related measures/information needed for assessing the impact of different training strategy interventions, and space set aside for recording the outcomes of training aids, devices, simulators and simulations (TADSS) usage. The databases is configured within a software program known as the Statistical Package for the Social Sciences (SPSS, Version 6.1 for Windows). Its files can be exported in a number of formats, including spreadsheet and database management programs, as well as into a number of other statistical utilities. This user's manual will help ARNG database managers use the SIMITAR data
