Erica's Elephant Aug 09 2020 When Erica Perkins wakes up on the morning of her tenth birthday, the last thing she expects is to find a very confused elephant sitting on her doorstep. So begins an unlikely friendship. But can a small girl and a rather large elephant learn to live together in a tiny terraced house? And when the dastardly owner of the local zoo plots to steal the elephant, will Erica be able to outsmart him?

Elephant Feb 12 2021 Elephants have lived on Earth for million of years. Yet due to illegal hunting and the destruction of their natural habitat, today they are among the most endangered of species. This informative photo essay follows this intelligent giant's day-to-day life and behavior, both in captivity and in the wild. With forty striking full-color photographs, *Elephant* offers youngsters a fascinating view of this largest of all land animals.

Little Elephant Listens Jul 20 2021 Little Elephant has big ears that are extra good for listening.

How the Elephant Got Her Trunk Feb 01 2020 Read Along or Enhanced eBook: Rudyard Kipling, the best-loved creator of childhood favorites *The Jungle Book* and *Rikki-Tikki-Tavi*, also gave us the wonderful *Just So Stories*. Stephanie P. Gilman breathes new life into this series, making them *Just So Much Fun!* Curiosity didn't kill the cat, but it did stretch the elephant's nose. In this retelling of Rudyard Kipling's classic tale, children will learn about the importance of listening to your elders and how curiosity can get you into a heap of trouble. With captivating illustrations, this silly story will be sure to delight audiences of any age.

Emily Brown: Emily Brown and the Elephant Emergency Jan 02 2020 Emily Brown, Stanley the bunny and Matilda the elephant are busy going on adventures, but every time they get to a particularly exciting part . . . Ring! Ring! goes the Emergency Telephone and it's Matilda's mummy on the end worrying that Matilda isn't wearing her wellies, or eating properly or almost anything. How can Emily Brown persuade her that sometimes adventures are good? This brilliant title from this award-winning team is a witty and poignant book about the importance of spending quality time with your children and allowing them to explore the world around them. 'A sensitive and witty handling of fears that has a valuable lesson for adults too. Great fun.' - Daily Mail Written by Cressida Cowell, the bestselling author of the *How to Train Your Dragon* series. <http://www.cressidacowell.co.uk/> Illustrated by award winning Neal Layton, creator of *Stanley's Stick*. <http://www.neallayton.co.uk/>

The dragon and the elephant Jun 18 2021 China and India are the most extraordinary economic success stories of the developing world. Both nations' economies have grown dramatically over the past few

decades, elevating them from two of the world's poorest countries into projected economic superpowers. As a result, the numbers of Chinese and Indians living in poverty have rapidly fallen and per capita incomes in China and India have quadrupled and doubled, respectively. This book investigates the reasons for these staggering accomplishments and the lessons that can be applied both to other developing nations and to the problem of poverty that remains in these two countries. The contributors pay particular attention to agriculture and the rural economy, examining how initial conditions and investments and the prioritization and sequencing of different policies and strategies have led to successes, and how the agricultural and rural sectors connect to overall economic expansion. They also emphasize the importance of anti-poverty programs and safety nets in helping poor people escape poverty. The book offers a set of policy and strategic options for future growth and poverty reduction. These include setting the right priorities for public spending, identifying trade and market reforms, building social safety nets for the poorest of the poor, and building accountable institutions that can provide public goods and services effectively. The book concludes by examining future challenges to China and India's economic development, such as the need to ensure growth that is sustainable, equitable, and environmentally friendly. *The Dragon and the Elephant* offers valuable insights to development specialists anxious to multiply the benefits experienced by two of the greatest economic successes in recent times.

Elephants Have Trunks Oct 11 2020 Young children are naturally curious about exotic animals. *Tell Me Why Elephants Have Trunks* offers answers to their most compelling questions about this large animal that uses its trunk to eat and drink. Age-appropriate explanations and appealing photos encourage readers to continue their quest for knowledge. Additional text features and search tools, including a glossary and an index, help students locate information and learn new words.

Elephant Me Jul 08 2020 The empowering story of little elephant Num-Num, who discovers the importance of simply being YOU! From the creators of international bestseller and much-loved classic *Giraffes Can't Dance*. It's time for the Elephant Games! One by one, the young elephants compete to impress King Elephant Mighty and earn their Elephant Name. Nina is the strongest, so she becomes Elephant Strong. Norcus is the loudest, so he becomes Elephant Noisy. Little Elephant Num-Num thinks he will never discover his own special talent - until he learns that the very best thing you can be is YOU! *Giraffes Can't Dance* has been a much-loved family favourite for over 20 years, and has sold over 7 million copies worldwide.

Baby Dragon: Finger Puppet Book May 06 2020 Meet Baby Dragon! Where does Baby Dragon live? Is he finally ready to fly? Follow along as he explores his world and discovers his special powers! The simple, comforting stories in this go-to baby gift series have made it a multimillion seller. Featuring a permanently attached plush finger puppet, each volume offers parents and children a fun, interactive way to play and read as they build a lifelong love of books together.

India Turns East Apr 16 2021 *India Turns East* tells the story of India's long and difficult journey to reclaim its status in a rapidly changing Asian environment increasingly shaped by the US-China rivalry and the uncertainties of US commitment to Asia's security. The Look East policy initially aimed at reconnecting India with Asia's economic globalisation. As China became more assertive, Look East rapidly evolved into a comprehensive strategy with political and military dimensions. Frédéric Grare argues that, despite this rapprochement, the congruence of Indian and US objectives regarding China is not absolute. The two countries share similar concerns, but differ in their tactics as well as their thoughts about the role China should play in the emerging regional architecture. Moreover, though bilateral US policies are usually perceived positively in New Delhi, paradoxically, the multilateral dimensions of the US Rebalance to Asia policy sometimes pushes New Delhi closer to Beijing's positions than to Washington's. This important new book explores some of the possible ways out of India's 'Eastern' dilemma.

I've Got an Elephant Dec 01 2019 Content with one elephant, then pleased to have two, a girl begins having problems as her lonely pachyderms bring home more and more friends throughout this rhyming counting book.

Can I Have a Pet Eagle? Dec 13 2020 If people can have pet parakeets, why can't they have a pet eagle? The narrator of this fun book describes important facts about these majestic birds. Readers will find out

that these birds of prey, and their supersharp talons, are much better off living in the wild than in our homes. The easy-to-follow sentences allow readers to practice their reading proficiency, while eye-catching photographs help demonstrate key points of the text.

The Dragon and the Elephant Mar 28 2022 The rise of China and India will be the outstanding development of the 21st century, raising fundamental questions about both the structure of the world economy and the balance of global geopolitical power. Will China still be a repressive and undemocratic regime, embracing free market economics but only when it suits? How aggressive a superpower will it be? And what about India, whose huge and growing population and economic prospects appear to guarantee prosperity? David Smith analyses the ways in which the world is tilting rapidly Eastwards, and examines all the implications of the shift in global power to Beijing, Delhi and Washington - a shift that will creep up on us before we know it.

The Dragon and the Elephant Apr 28 2022 China and India are the most extraordinary economic success stories of the developing world. Both nations' economies have grown dramatically over the past few decades, elevating them from two of the world's poorest countries into projected economic superpowers. As a result, the numbers of Chinese and Indians living in poverty have rapidly fallen and per capita incomes in China and India have quadrupled and doubled, respectively. This book investigates the reasons for these staggering accomplishments and the lessons that can be applied both to other developing nations and to the problem of poverty that remains in these two countries. The contributors pay particular attention to agriculture and the rural economy, examining how initial conditions and investments and the prioritization and sequencing of different policies and strategies have led to successes, and how the agricultural and rural sectors connect to overall economic expansion. Elephant Joe, Brave Knight! Mar 16 2021 Elephant Joe, brave knight, will! (With his trusty sidekick, Zebra Pete, of course.) But there's an unexpected twist in this tale. Is the damsel in distress who she seems to be? And what happens when Elephant Joe and Zebra Pete wake the dragon guarding the Dark Knight's tower? There'll be lots of jousting and heroics before it's all over in this comical adventure from British author-illustrator David Wojtowycz. And we mean comic-al! Witty asides and clever dialogue in word balloons add to the hilarity and captivating design.

Rise of the Asian Giants Sep 09 2020 This comparative study by Chinese social scientists of the Chinese and Indian development experiences over six decades of independent nationhood is witness to the fact that China and India are now looking at each other directly in search of a win-win partnership as both countries transform themselves into economic powerhouses.

Elephant Calves Sep 29 2019 In *Elephant Calves*, emergent readers learn about baby elephants. Carefully crafted text uses high-frequency words, repetitive sentence patterns, and strong visual references to support emergent readers, ensuring reading success by making sure they aren't facing too many challenges at once.

Meet a Baby Elephant May 18 2021 Audisee® eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience! African elephants are the largest animals that live on land. Elephant calves are born into a big family. They play with other calves. Calves learn to use their trunks. They drink water and make loud noises. How do baby elephants grow and change? Read this book to find out! This title also includes a life cycle diagram, a habitat map, fun facts, a glossary, and more!

Farewell, Grandpa Elephant Jan 14 2021 Grandpa Elephant knows that it is his time to go to the elephant graveyard, and so he begins his farewell to his grandchildren. The young elephants are confused, but they

soon realize that although there is sadness, the mystery of death holds countless possibilities. Maybe Grandpa Elephant will go to heaven and walk on clouds, or maybe he will come back to earth in a new form. Even he does not know. Though the little elephants will never see Grandpa Elephant again, they learn that he will live on in their thoughts and dreams. Helping children deal with the loss of a loved one can be difficult, but *Farewell, Grandpa Elephant* can make it easier to explain what is happening in terms that they will understand. Through the elephants' eyes, children learn that even though they will never see a beloved face again, there is the certainty of preservation through their memory.

The Elephant Thief Jan 26 2022 When street urchin Danny accidentally bids for Maharajah the elephant at an Edinburgh auction, his life is transformed as he is swept up on an unforgettable journey. But soon Danny's shady connections threaten to destroy his new-found happiness. Will he ever escape his past?

Elephants Do Not Belong in Trees Mar 04 2020 Elephants do not belong in trees. It's not natural. It makes other animals uncomfortable. This is the story of Larry, an elephant who wanted to live in a tree. This is a story about being the new kid and being a little bit different (okay, A LOT different). A story about acceptance and making friends. When Larry decides he wants to live in the big bushy tree in the middle of the wide-open field, the current residents, Bird, Squirrel and Monkey, are not very welcoming. They throw nuts at him and peck at his head; they tell him to leave and are downright rude. But Larry persists—why can't he live in the tree? When his new home is threatened by something much bigger than all the animals combined, Larry shows everyone that he cares just as much about the tree as they do.

The Elephant and the Dragon Jun 26 2019 Created as a fable for adults who are young at heart, *The Elephant and the Dragon* is a new fable told in an old writing style, much like the famous McGuffey's Eclectic Primers or Rudyard Kipling's *Just So Stories* from the turn of the nineteenth century. Escape from your daily routine and travel to a beautiful high mountain valley where the creatures of the world's supercontinent look to wise governors for advice about life choices, family dynamics, heated disagreements, and more. This fable is unique in that there are several lessons and morals interwoven within the narrative instead of the classic idea of ending the story with a single, intended teaching. The lessons represented in this story are age-old, yet still timely for every culture.

Emily Brown and the Elephant Emergency Dec 25 2021 Emily Brown, Stanley the bunny and Matilda the elephant are busy going on adventures, but every time they get to a particularly exciting part . . . Ring! Ring! goes the Emergency Telephone and it's Matilda's mummy on the end worrying that Matilda isn't wearing her wellies, or eating properly or almost anything. How can Emily Brown persuade her that sometimes adventures are good? This brilliant title from this award-winning team is a witty and poignant book about the importance of spending quality time with your children and allowing them to explore the world around them. 'A sensitive and witty handling of fears that has a valuable lesson for adults too. Great fun.' - Daily Mail Written by Cressida Cowell, the bestselling author of the *How to Train Your Dragon* series. <http://www.cressidacowell.co.uk/> Illustrated by award winning Neal Layton, creator of Stanley's Stick. <http://www.neallayton.co.uk/>

The Elephant and the Dragon: The Rise of India and China and What It Means for All of Us Oct 03 2022 "A comprehensive primer on the development of these Asian tigers."—Noam Lupu, San Francisco Chronicle *The Elephant and the Dragon* is the essential guide to understanding how India and China are reshaping our world. With labor now unbound from geographic borders, we're seeing startling shifts in how—and where—nearly everything we buy is made. In a compelling mix of history and on-the-ground reporting, veteran journalist Robyn Meredith untangles the complex web of business and politics, as well as environmental and cultural issues that entwine India, China, and the West. She also outlines how Americans—business leaders, workers, politicians, even parents—can understand the vast changes coming and thrive in this new age.

The African Elephant Sep 21 2021 "Fascinating images accompany information about the African elephant. The combination of high-interest subject matter and narrative text is intended for students in grades 3 through 7"--Provided by publisher.

You Can't Call an Elephant in an Emergency Nov 23 2021 An elephant firefighter? A traffic cop sloth? A paramedic chimpanzee? What a catastrophe! In case of emergency, you'd do best to avoid ALL of these

creatures. Find out why in this hilarious picture book filled with the most unlikely rescue attempts. The brilliant new book from the creators of the bestselling *You Can't Take an Elephant on the Bus* and *You Can't Let an Elephant Drive a Digger*. It's bursting with all sorts of emergency vehicles and crazy creatures. Nee-nar! Nee-nar! A special edition where the words and pictures take you on a journey far beyond the page. This audio-enabled eBook comes with a gorgeous reading by Sam Newton, along with music and sound effects.

The Elephant and the Dragon: The Rise of India and China and What It Means for All of Us Nov 04 2022 Offers a compelling study of the rise to international economic power of China and India that examines the implications of these emerging Asian giants for America and what America needs to know about the economic and political strategies of the two nations in order to compete in the global marketplace. Reprint.

The Dragon in the Library Jun 06 2020 Kit can't stand reading She'd MUCH rather be outside, playing games and getting muddy, than stuck inside with a book. But when she's dragged along to the library one day by her two best friends, she makes an incredible discovery - and soon it's up to Kit and her friends to save the library... and the world.

How to Save the Dragon Oct 23 2021 PlotWrinkles is an adorable and well balanced elephant, and Flappy is a cute and energetic dragon who live together in wondrous world, filled with mysteries. They are special in their own way and they have super-powers. When the alarm gets triggered, Wrinkles and Flappy get separated, and their mission is in jeopardy. In this book, you will learn the two secrets that brought them back together, and helped them accomplish their mission. Of course that behind the events and characters of the story there is a significance. Why this book? Children's brains are developing and during this time, they learn everything, including how to deal with emotions. Learning and growth, can only happen once the need for safety is fulfilled. Big emotions that arise everyday are not a palpable thing, but they are perceived and felt as a very real threat. This is why kids need help in learning how to deal with 'big emotional situations'. How can this book help? It is easier for children to create coping strategies, when they have some practical things to represent abstract notions. Lyrics help children remember to 'tell the story' so that they learn to process events and emotions.

That's Not My Elephant Aug 21 2021 This delightful series of board books is aimed at very young children. The bright pictures, with their patches of different textures, are designed to develop sensory and language awareness. Babies and toddlers will love turning the pages and touching the feely patches.

Every Home Needs an Elephant Aug 28 2019 One hot summer's day nine-year-old Sarah goes to the grocery store...and comes home with an elephant. Sarah's new elephant is not without its challenges, he has trouble fitting through doorways, knocks over everything in sight, is allergic to the neighbor's cat and cowers at the sight of a mouse. But he also has a knack for arranging flowers and keeping Sarah company. And it's because of the elephant that Sarah meets her new next-door neighbor and makes her first real friend. It's because of the elephant that Sarah's mother starts spending more time with her. In fact, despite the destruction, just about everything good that happens is because of the elephant. It turns out that every home, and every nine-year-old girl, does need an elephant. A story about friendship, adventure, and never being afraid to be yourself, this hybrid graphic novel is the perfect introduction to chapter books for all the young animal-lovers in your life.

Elephant vs. Rhino Nov 11 2020 It's fight time for the elephant and the rhino! One animal is The Tusked Titan, and the other animal is The Horned Heavyweight. Both fighters have size on their side. But which one will be crowned champion of the Clash of the Titans?

The Elephant and the Dragon in Contemporary Life Sciences Jun 30 2022 This book demonstrates that the 'subversiveness' assumed in China's and India's rise in the life sciences reflects many of the regulatory challenges that are shared globally. It stresses a decolonial imperative for science governance to be responsive and effective in a cosmopolitan world.

Elephant Calves Oct 30 2019 This title covers the first days and weeks of an elephant calf's life through simple sentences. Fun and colorful photographs correlate with the text. Aligned to Common Core Standards and correlated to state standards. Abdo Kids Jr. is an imprint of Abdo Kids, a division of ABDO

On India Apr 04 2020 Powerful images of India have emerged during the last fifteen years, after the country's economy was opened up in 1991. The economic rise of India started to grab the attention of global policy makers and economists recently. Little more than 15 years ago, this giant was virtually off the radar of many western countries. The era of skepticism is now over and the era of awe has begun. The global competitiveness of Indian industry and the role its knowledge capital is playing in the process of globalization and structural change in the world economy are the visible signs of India's empowerment. India is transforming the global economy in many ways that could not have been conceived a decade earlier. The world is coming to understand its success in information technology, off shore centers, and above all, the contributions of Indians in the hi-tech start up arena. India today is at the cusp of a paradigm change in its growth trajectory and its position in the world. This text is a discourse on India's recent rise, its present competencies and the future challenges the country needs to overcome, if it has to live up to the reputation as the next economic power house.

The Dragon and the Elephant May 30 2022 The return of the once-dormant economies of China and India to dynamism and growth is one of the most remarkable stories in recent history. The two countries are home to nearly 40 percent of the world's population, but until recently neither had played an influential role in the contemporary global economy. In the past two decades, China and India have liberalized internal economic policy, treatment of foreign investment, and trade, and have experienced economic growth at sustained high rates. From the point of view of the United States, however, the most important development in the Chinese and Indian economies in the long term may be the strides they are making in developing their own domestic innovation capacities. After a long period of underinvestment, both countries have committed to growing their science and education systems to bolster research and further economic expansion. Some observers of the recent growth have said that both countries are surging in their efforts to spur innovation; others have emphasized the potential of one country over the other; and still others have suggested that both China and India have a long way to go before achieving innovation-driven growth. With such a range of views, The National Academies set out to describe developments in both countries, in relation to each other and the rest of the world, by organizing a conference in Washington, D.C. The conference, summarized in this volume, discussed recent changes at both the macroeconomic level and also in selected industries, and explored the causes and implications of those changes.

The Elephant and the Dragon Sep 02 2022 Offers a compelling study of the rise to international economic power of China and India that examines the implications of these emerging Asian giants for America and what America needs to know about the economic and political strategies of the two nations in order to compete in the global marketplace.

The elephant and the dragon in contemporary life sciences Feb 24 2022 This book provides a powerful diagnosis of why the global governance of science struggles in the face of emerging powers. Through unpacking critical events in China and India over the past twenty years, it demonstrates that the 'subversiveness' assumed in the two countries' rise in the life sciences reflects many of the regulatory challenges that are shared worldwide. It points to a decolonial imperative for science governance to be responsive and effective in a cosmopolitan world. By highlighting epistemic injustice within contemporary science, the book extends theories of decolonisation.

The Dragon and the Elephant Aug 01 2022 The rise of China and India will be the outstanding development of the 21st century, raising fundamental questions about both the structure of the world economy and the balance of global geopolitical power. Will China still be a repressive and undemocratic regime, embracing free market economics but only when it suits? How aggressive a superpower will it be? And what about India, whose huge and growing population and economic prospects appear to guarantee prosperity? David Smith analyses the ways in which the world is tilting rapidly Eastwards, and examines all the implications of the shift in global power to Beijing, Delhi and Washington - a shift that will creep up on us before we know it.

Thirsty Baby Elephant Jul 28 2019 The fish were happy swimming in the river. But Baby Elephant came to the river for big drinks of water. The fish were frightened when they saw the water going down. How could they make Baby Elephant go away?
