Tunnel 29 Jun 17 2019 He escaped from one of the world's most brutal regimes. Then, he decided to tunnel back in. In the summer of 1962, a young student named Joachim Rudolph dug a tunnel under the Berlin Wall. Waiting on the other side in East Berlin were dozens of men, women, and children—all willing to risk everything to escape. From the award-winning creator of the acclaimed BBC Radio 4 podcast, *Tunnel 29* is the true story of this most remarkable Cold War rescue mission. Drawing on interviews with the survivors and Stasi files, Helena Merriman brilliantly reveals the stranger-than-fiction story of the ingenious group of student-diggers, the glamorous red-haired messenger, the Stasi spy who threatened the whole enterprise, and the love story that became its surprising epilogue. *Tunnel 29* was also the first made-for-TV event of its kind; it was funded by NBC, who wanted to film an escape in real time. Their documentary—which was nearly blocked from airing by the Kennedy administration, which wanted to control the media during the Cold War—revolutionized TV journalism. Ultimately, *Tunnel 29* is a success story about freedom: the valiant citizens risking everything to win it back, and the larger world rooting for them to triumph.

The Oracle of Night Aug 12 2021 *THE INTERNATIONAL BESTSELLER* What is a dream? Why do we dream? How do our bodies and minds use dreams? These questions are the starting point for this unprecedented, astonishing study of the role and significance of dreams, from the beginning of human history. An investigation on the grand scale, encompassing literature, anthropology, religion, and science, it articulates the essential place dreams occupy in human culture, and how they functioned as the catalyst that compelled us to transform our earthly habitat into a human world. From the earliest cave paintings - where the author finds a key to humankind's first dreams, which contributed to our capacity to perceive past and future - to cutting-edge scientific research, Ribeiro arrives at startling and revolutionary conclusions about the role of dreams in human existence and evolution. He explores the advances that contemporary neuroscience, biochemistry and psychology have made into the connections between sleep, dreams, and learning, before revealing what dreams have taught us about the neural basis of memory and the transformation of memory in recall. And he makes clear that the earliest insight into dreams as oracular has been confirmed by contemporary research. Accessible, authoritative, and fascinating from first to last, *The Oracle of Night* gives us a wholly new way to understand this most basic of human experiences.

If Walls Could Talk Sep 20 2019 Why did the flushing toilet take two centuries to catch on? Why did Samuel Pepys never give his mistresses an orgasm? Why did medieval people sleep sitting up? All these questions - and more - are answered in this juicy, truly intimate history of the home. Through the bedroom, bathroom, living room and kitchen, Lucy Worsley explores what people actually did in bed, in the bath, at the table, and at the stove. From sauce-stirring to breast-feeding, teeth-cleaning to masturbation, getting dressed to getting married, this book will make you see your home with new eyes.

The Yellow Wallpaper Illustrated Dec 04 2020 "*The Yellow Wallpaper*" is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in *The New England Magazine*. [1] It is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can recuperate from what he calls a "temporary nervous depression - a slight hysterical tendency", a diagnosis common to women during that period

City of Night Apr 08 2021 Bold and inventive in style, *City of Night* is the groundbreaking 1960s novel about male prostitution. As the narrator moves from Texas to Times Square and then on to the French Quarter of New Orleans, Rechy delivers a portrait of the edges of America that has lost none of its power. On his travels, the nameless narrator meets a collection of unforgettable characters, from vice cops to guilt-ridden married men eaten up by desire, to Lance O'Hara, once Hollywood's biggest star. Rechy describes this world with candour and understanding in a prose that is highly personal and vividly descriptive.

Writing on the Walls at Night Oct 02 2020 In this new collection of prose poems, Claudia Serea uses surrealism, irony, and black humor to express her experiences, from growing up behind the Iron Curtain to immigrating to New York City. The first section of the book, "There Were No Magic Beans," recalls her childhood in Romania under Nicolae Ceaușescu's rule, a world in which terror mixes with fairy tales, nightmares, and dreams. The second section, "The Keepers of Moon Keys," introduces a cast of peculiar characters, including folk tale protagonists, witches, ghosts, a collector of clouds, a bone music maker, a man who paints the time, and the Lord of Meanwhile. In "Dark Calligraphy," the poet conjures history, remembering war and oppression through the eyes of a child. The reader is guided by a little girl and a museum custodian through the great traumas of recent history. In the last section of the book, "The Russian Hat," Serea transports the reader into a metropolis as strange as the past she carries with her, to the "museum of our lives," where "we are the curators, the visitors, and the paintings that paint themselves." This astonishing place vaguely resembles New York City distorted by memories and dreams, but it might as well be Las Vegas where "what happens in the poem stays in the poem." In this collection, Serea's readers win "pound after pound of shiny poems," the magical beans they will use to escape again and again, discovering hidden meanings with surprise and delight in each new reading.

Reinventing Bach Nov 03 2020 DIV Johann Sebastian Bach – celebrated pipe organist, court composer and master of sacred music – was also a technical pioneer. Working in Germany in the early eighteenth century, he invented new instruments and carried out experiments in tuning, the effects of which are still with us today. Two hundred years later, a number of extraordinary musicians have utilised the music of Bach to thrilling effect through the art of recording, furthering their own virtuosity and reinventing the composer for our time. In Reinventing Bach, Paul Elie brilliantly blends the stories of modern musicians with a polyphonic account of our most celebrated composer's life to create a spellbinding narrative of the changing place of music in our lives. We see the sainted organist Albert Schweitzer playing to a mobile recording unit set up at London's Church of All Hallows in order to spread Bach's organ works to the world beyond the churches, and Pablo Casals's Abbey Road recordings of Bach's cello suites transform the middle-class sitting room into a hotbed of existentialism; we watch Leopold Stokowski persuade Walt Disney to feature his own grand orchestrations of Bach in the animated classical-music movie Fantasia – which made Bach the sound of children's playtime and Hollywood grandeur alike – and we witness how Glenn Gould's Goldberg Variations made Bach the byword for postwar cool. Through the Beatles and Switched-on Bach and Gödel, Escher, Bach – through film, rock music, the Walkman, the CD and up to Yo-Yo Ma and the iPod – Elie shows us how dozens of gifted musicians searched, experimented and collaborated with one another in the service of a composer who emerged as the prototype of the spiritualised, technically savvy artist. /div

Metallica: Enter Night Mar 19 2022 'A flaming juggernaut of heavy-metal biog' GUARDIAN 'This is the definitive account of heavy metal's biggest band of all' CLASSIC ROCK 'Truly enlightening' ROCK SOUND 'ENTER NIGHT, Mick Wall's biography of Metallica confirms this grizzled veteran to be as engaged and waspishly authoritative a chronicler of metal's most hirsute behemoths as Barry Miles has been for the Beats' INDEPENDENT ON SUNDAY Mick Wall moves on from Led Zeppelin to produce a definitive doorstop on Metallica. Alongside contemporaries Slayer, Megadeth and Anthrax, Metallica came to prominence in the eighties as one of the 'big four' of thrash metal. Metallica were to thrash, though, what the Sex Pistols were to punk. Nearly thirty years on, their tale is one of alcohol, rule breaking and tragically early death. But allied to that are colossal sales figures for their records -- they are the fifth-highest selling recording artists of all time - and members with backgrounds that touch on jazz and classical music. Metallica, in fact, have garnered more critical acclaim than any heavy rock band since Led Zeppelin. Fresh from the critical and commercial success of WHEN GIANTS WALKED THE EARTH, Mick Wall takes a similar informed look at the band, a group he has known on and off since their formation in 1981.
