Thunder, Lightning & Storm Jun 03 2020 A sinister missile project in the Gulf of Guinea escapes the attention of the big powers as the diabolical ambitions of a renegade scientist puts the security of the African continent at risk. The onus falls on Nigeria to live up to her potential as the world's largest black power. She engages in high stakes diplomacy and launches kinetic action to neutralise a complex military and scientific threat with the backing of ECOWAS, the AU and the UN?but the responsibility for executing that assignment would fall squarely on the shoulders of one person: Flight Lieutenant Aminat Zechariah!

School Science Practical Work in Africa Dec 22 2021 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching practical work. This book will be of great interest to academics, researchers and post-graduate students in the fields of science education and educational policy.

[An Analysis of the West African School Certificate Examination in Nigeria](#) Aug 18 2021

[Public Awareness of Malpractice during the Examinations by WAEC in Nigeria](#) Sep 18 2021 Academic Paper from the year 2017 in the subject Sociology - Individual, Groups, Society, , language: English, abstract: This paper examined the impact of awareness creation and administration of various sanctions on examination malpractice, using the West African Examinations Council as a case study. The effects of the awareness level and the sanctions were also critically x-rayed with a view to applauding the results if encouraging or suggesting an improved strategy for an effective control and noticeable reduction in the rate of examination malpractice in public examinations like the West African Senior Secondary Certificate Examinations (WASSCE) conducted by WAEC. The rate of candidates' involvement in malpractice during the public examinations conducted across West African subregion is of great concern to many stakeholders. In spite of stringent measures taken to curb malpractice, the rate of involvement seems to be increasing geometrically. It is in reaction to this worrisome trend that this study was conducted to probe into the root-cause of continuous indulgence in malpractice during the examinations conducted by the West African Examinations Council (WAEC) in Nigeria. This is with a view to measuring the public awareness level as regards the implications of involvement in examination malpractice and appealing to their moral instinct to eschew this menace, using the proposed theory of awareness-creation and sanction-strategy (SACS). The study employed purposive sampling technique in selecting 10 (ten) states where various stakeholders in education were sampled for the administration of a questionnaire designed to gauge their knowledge of implications of involvement in examination malpractice of different forms. One thousand copies (1,000) of the instrument were administered in the States of Abia, Katsina, Kebbi, Benue, Kwara, Cross-River, Bayelsa, Nasarawa Niger and Edo among the Senior Secondary three Students, their teachers and parents of the same students. These states were purposively selected for their high level of malpractice recorded in the examination conducted by WAEC in recent times. Out of the administered copies of the instrument, nine hundred and forty-two (942) were retrieved for analysis.

The Battle of the Fields Jul 05 2020 This book will appeal not only to historians and geographers, but to many who maintain a deep interest in the British countryside and its past, and to those who continue to share a fascination for the Second World War, in particular the 'home front'.

Newswatch Oct 20 2021

[The Crawling Giant](#) Nov 20 2021 The Nigerian condition has been the subject of conversation among writers, policymakers, and market men and women. There is no where the subject is not broached or discussed and often solutions are proffered, from the rational to the mundane. This is to be applauded because a culture of debate is to be preferred to silence as it is a national asset. Indeed, it is the duty of the ruling elite within the state sphere to distil the feedback from the citizenry and turn it into an outcome that is healthy for the polity.

Handbook of Research on the Role of Human Factors in IT Project Management Sep 30 2022 The role humans play in the field of information technology continues to hold relevance even with the industry's rapid growth. People contribute heavily to the physical, cognitive, and organizational domain of computing, yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive research in order to avoid marginalization and insufficient data. The Handbook of Research on the Role of Human Factors in IT Project Management is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management, and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers, and students seeking current research on the dynamics of human influence in technological projects.

The West African Examinations Council (1952-2002) May 03 2020 Gle, a chief priest, abandons his role as custodian and defender of age-old customs to fight voluntarily on the side of the British in the Second World War. When the war ends, Gle and his fellow African soldiers do not receive their promised rewards. But they do not return peacefully to their homesteads or reassume their traditional values. Politicised by their role in the foreign conflicts they join together and march in protest to present a petition to the Governor of the Gold Coast (now Ghana), in an act of self-determination. The colonial forces respond with fire; soldiers are shot dead. The angry protesters descend into Accra and loot the shops, in what became the famous looting of 28 February 1948, and would mark the beginning of Ghana's fight for independence from Britain.

No Grammar Tears 1 Mar 13 2021 First of all other, I find No Grammar Tears very informative. What amazes me is the kind of dedication and patience Marthus-Adden spent in writing this book. This is because this kind of genre actually needs full attention. Truly, whatever he has written is precise and correct. I really admire his generosity of sharing his knowledge about English owing to the fact that English is his second language. What is good about the book is that the writer wrote it in a manner that readers can easily understand it. In other words, what makes this book different from the other English grammar books in the market is that it is more user-friendly, which means he wrote it in a manner that can easily be understood, especially by those who just learned English and want to learn more. Correctly put, this book is a guide to those who wants to learn English on their own. As a matter of fact, he has a knowledge check in every subject he has discussed in this book. He catered everything, especially in the part on how to construct sentences, which are very precise and which make it very easy to learn the book. He did not change anything at all in terms of the right way to speak and learn English, but instead he made it easier and more convenient for those people whose English is not their first language. In point of fact, he wrote this book not because he wants to show off to the world that he is a good grammarian, but because he wants to help those struggling to learn English. The book therefore deserves recognition because he is actually giving a favour to those who can't afford to have a private tutor to teach them how to speak English correctly. I must, in conclusion, admit that this book will really help those people who want to learn English language; those people who are striving to speak perfect English; and those people that English is their second language. I will therefore commend the author for this book.

Every Great Man Has a Story to Tell Jul 17 2021 Why do so many people born into the world as ordinary people pass through the world as paupers and return to their Creator as they had come, just unsung people? In other words, why do majority of people born poor pass through life poor and finally die poor and totally forgotten without anything to show that they had been here? Why does life favor few and make them so great and unique in whatever they do, thereby making them the singsong of others even after they had departed the world for years? Why is nature so unjust, making others to be born with silver spoons while others it makes church rats? Why has nature been so partial to have destined majority in the world to a life of poverty and wants, thereby making them the hewers of woods and drawers of water to a few it had destined greats and nobles? Why is destiny so wicked to have determined the fate of some to be poor and lowly while to some it determined theirs in gold?

Vocationalisation of Secondary Education Revisited Aug 30 2022 The book is a cutting-edge contribution to the debate which has occurred for some time on the pros and cons of secondary education becoming more closely and explicitly related to preparing young people for the world of work. The book provides concrete examples of the vocationalisation of secondary education, with particular reference to the situation in Africa. The target audience for the book includes policy-makers, practitioners, administrators, education planners, researchers, teachers and teacher educators with a concern about the relationship between secondary education and education for the world of work (with particular reference to technical and vocational education and training - TVET.) The book appears in the Springer book series on 'Technical and Vocational Education and Training: Issues, Concerns and Prospects' and compliments the 'International Handbook of Technical and Vocational Education and Training' and other publications in the 'International Library of TVET' all of which are publications of the 'UNESCO-UNEVOC International Centre for TVET' in Bonn, Germany

WAEC in Review May 27 2022 WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army–Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia
