The Road Apr 25 2022 The post-apocalyptic modern classic with an introduction by novelist John Banville. In a burned-out America, a father and his young son walk under a darkened sky, heading slowly for the coast. They have no idea what, if anything, awaits them there. The landscape is destroyed, nothing moves save the ash on the wind and cruel, lawless men stalk the roadside, lying in wait. Attempting to survive in this brave new world, the young boy and his protector have nothing but a pistol to defend themselves. They must keep walking. Winner of the Pulitzer Prize for Fiction, *The Road* is an incandescent novel, the story of a remarkable and profoundly moving journey. In this unflinching study of the best and worst of humankind, Cormac McCarthy boldly divines a future without hope, but one in which, miraculously, this young family finds tenderness. An exemplar of post-apocalyptic writing, *The Road* is a true modern classic, a masterful, moving and increasingly prescient novel. This edition is part of the Picador Collection, a series of the best in contemporary literature, inaugurated in Picador's 50th Anniversary year.

John McIvor is a man of enormous drive and determination. It is the intimate bond with Kuran Station that propels his relentless strife throughout the novel, first to acquire it, then to keep it for himself. This paper will briefly outline the causes of this defining character trait of his and then discuss its consequences for John McIvor's personal relationships. Towards the end, the generational conflict that ensues between John and his daughter Ruth will be put into the context of the major themes of *The White Earth*. It stands to reason that the vigor that he pursues his aim with stems from a deep seated psychological need, acquired during childhood and completely internalized by the time John reaches adulthood. Accordingly, in *The White Earth* the question of ownership is already raised in John's earliest childhood experiences.

Character Analysis Nov 01 2022 Reich's classic work on the development and treatment of human character disorders, first published in 1933. As a young clinician in the 1920s, Wilhelm Reich expanded psychoanalytic resistance into the more inclusive technique of character analysis, in which the sum total of typical character attitudes developed by an individual as a blocking against emotional excitations became the object of treatment. These encrusted attitudes functioned as an "armor," which Reich later found to exist simultaneously in chronic muscular spasms. Thus mind and body came together and character analysis opened the way to a biophysical approach to disease and the prevention of it.

Hard Times Illustrated Jan 11 2021 *Hard Times - For These Times* (commonly known as *Hard Times*) is the tenth novel by Charles Dickens, first published in 1854. The book surveys English society and satirises the social and economic conditions of the era. *Hard Times* is unusual in several ways. It is by far the shortest of Dickens' novels, barely a quarter of the length of those written immediately before and after it. Also, unlike all but one of his other novels, *Hard Times* has neither a preface nor illustrations. Moreover, it is his only novel not to have scenes set in London. Instead the story is set in the fictitious Victorian industrial Coketown, a generic Northern English mill-town, in some ways similar to Manchester, though smaller. Coketown may be partially based on 19th-century Preston.

Written in the year of 1948, the author swapped the last two digits while describing a future totalitarian society where the minds, attitudes and actions of the subjects are thoroughly scrutinized by the "Thought Police", suspected dissidents tracked down and where the worship of the mythical party leader Big Brother is forced upon the masses. The low-ranking party member Winston Smith begins secretly to question the whole system and initiates a forbidden love affair with another party member.
